Work Experience

Software Engineer at 100Devs Agency, Los Angeles, CA (remote)

October 2020 — Present

- Created full-stack applications using client and server-side technologies which include **JavaScript**, **React**, **HTML**, **CSS**, **Bootstrap**, **MongoDB**, **Express.js**, and **Node.js**.
- Worked in an Agile environment in teams of developers to understand requirements, design, code, and test innovative applications, and support those applications for our highly valued customers.

Recent Projects

- Beatme - A beat/instrumental mp3 audio file management application.
 - Built the frontend using JavaScript, HTML/CSS, and Bootstrap.
 - Built the backend using Node.js, MongoDB, Express.js, Cloudinary API, and deployed with Heroku.

Drug Testing Technician at Court Services Offender Supervision Agency (CSOSA) Washington, DC (hybrid)

January 2017 — Present

- Displayed strong work ethic and positive attitude when drug testing over 100 probation and parole offenders per day.
- Adapted my role and responsibilities based on the needs of the lab.
- Trained new employees on all documentation procedures that were done following agency policies and procedures, ensured appropriate chain of custody procedures for all samples taken, recorded, and forwarded for further laboratory confirmation testing.

Education

Bachelors in Science at Frostburg State University, Frostburg, MD 2012-2016

Major: Criminal Justice Minor: Psychology
