Erasmus +
Youth in Action – Key action 1 –youth exchange

About the Project:

This youth exchange brings together three organizations from three different countries, with the purpose of sharing and learning more about the traditions and cultures of the participating countries. The participants will be stimulated to preserve and promote local traditions.

The aim of the project is that the young participants in the exchange become motivated and aware that they have the civic responsibility to preserve and promote local traditions, to develop a continuous dialogue between generations, between nations, and at the same time ensure the inclusion of young people with fewer opportunities.

Therefore, thanks to this youth exchange, we would like to:
- Involve the participants as active citizens in their relationship with the community, with their local traditions and habits;
- Develop their skills of preserving and capitalizing traditions in their communities;
- Raise awareness in order to promote the cultural diversity as an European value;
- Foster personal growth and development of key competencies among participants, especially those with fewer opportunities, through positive interaction with differences and active participation.

Accommodation:

Accommodation will be in the school, using classrooms as bedrooms. Showers are in a different building (sport pavilion style).

Costs:

Travel costs: will be reimbursed according the received grants from the Erasmus + program, based on the results of the distance calculator supported by the European Commission (http://ec.europa.eu/programmes/erasmus-plus/tools/distance_en.htm)

We will reimburse that cost to the sending organization when we receive all the original documents we need (invoice, tickets, boarding passes, etc.).

Please note that it is not possible to reimburse without the original tickets and/or boarding passes. In addition one invoice or document that shows the name of the participants, date, route and price.
