

Encourage sharing in the group

It's so fun to see that the group is growing and that we are spreading PIF, neighborliness and sustainability together!

🌟♻️ **Feel free to invite everyone you know who lives or works in Vasastan/Norrmalm** so that the group can grow even bigger and better! 🍀🙌

Group Survey - how best to spread the group

We would need everyone's input on how we can together help spread the PIF group. Because we want as many people as possible to have the chance to pif and contribute to a more sustainable and more humane society where we help and share with each other!

Vote for the option you think will make the group grow the fastest - or add your own suggestion. Together we spread PIF! <3

1. Share link and tell about the group on your own Facebook page
2. Post a link to the group in other Facebook groups you are a member of
3. Invite friends and colleagues to the group using the Invite button in the group
4. Tell friends and colleagues about the group in other ways
5. Post information about the PIF group on physical notice boards, e.g. in the local grocery store, at the workplace or in the general waste room

Puff for PIF group in other FB groups before Christmas

Title: Clean out the pantry and make both the neighbor and the planet happy!

Text: So in the run up to Christmas and especially this year when many people are having a bit of a hard time financially, I want to take the opportunity to give a shout out to the group Vasastan & Norrmalm PIF - Pay It Forward where you can give away things, clothes, (maybe Christmas presents?) for free to others in your neighborhood. Instead of payment, you give something else to someone else = pay it forward! The group was started just two months ago and already has almost 400 members.

Welcome into the warmth! 💕👶

Individual message with a call to tip invitees to answer question+rules

Hi Lovisa!

How nice that you have invited so many people to Östermalm & Gärdet PIF. 🤝🙏

However, many of them have not accepted the group rules and/or answered the membership question. This is usually because they haven't seen the invitation. If we accept them as members anyway, they will not be able to post anything in the group (until they have answered the question and agreed to the rules). So it would be great if you tipped those you've invited who are still not members of the group (if you click on Members you can filter who are your friends), so they can pay attention and act on the invitation.

Thank you so much for your help and great commitment!

Warm greetings,
Fredrik (Group admin)

Denial with feedback including tips about the PIF app

Hello, You have not answered the membership questions, so we unfortunately have to reject your application. Feel free to apply again! In the near future, there will also be a PIF app that will simplify piffing! Feel free to sign up for it at www.pif.community MVH Admin
