. после этого русский текст изменился немного. что-то убралось, что-то было переписано чуть по другому.

нужно перевести русский новый текст. и если вы видите, что есть уже переведенная часть текста. то просто берете ее из старого перевода.

- This house was treated with protection from snakes, spiders, mosquitoes and large cockroaches
- The house has a safe. You can't live without a safe in Asia!
- A large supermarket Tesco Lotus and an evening market with inexpensive things, fruits and souvenirs (~ 15 minutes) and the Villa Market (~ 20 min by walk), cafes and restaurants are nearby

Funnier! Safer! More comfortable!

Money-saving!

- You will get a secret map of Phuket with TOP-275 most beautiful places, that I was selecting with a critical eye. You will remember these places when you return from the trip. It took me more than 14 months to compile this map. And it is constantly updated!
- Useful tips are noted on the map: where it is safer, more reliable and cheaper to buy food, souvenirs, goods, cosmetics, seafood. After all, these are the most popular products and the difference in price reaches 200%!

Wi-Fi + Cable TV with russian and children's channels

- I have a private wi-fi without glitches, communication breaks, you can watch movies online. (In fairness, it should be said that many others have a slow common wi-fi for 10-30 people, and you can not watch movies and work there)
- The Internet is enough to work with video, download serials, torrents
- Cable TV with Russian, English, music and children's channels

Mosquitoes. Malaria. Dengue. Diseases

- I took care to protect you from mosquitoes and set up nets, fumigators and lamps from the blood-sucking vectors of the infection. There will not be Dengue and Malaria! I think it's important to protect my guests from this!

Included

- Shampoo, towels 2-6 pcs, hair dryer, iron, shower gel. (Usually it is not provided in Thailand). Prices for these products are overstated to 300% in supermarkets. Do not you want to overpay? Take a sunscreen with a protective factor of 30-50 SPF from home

Insurance on bikes and scooters

About what it would be better to avoid, but you can't turn a blind eye to it! Injuries!

- I have special Thai insurance on bikes with coverage up to \$ 1000! I can activate it. It works even if you don't have a driver's license (there was a similar case, and the insurance was activated). Security is above all! Usually, there is no such insurance. I bought it for the guests!

Air conditioners

- Did you know that they don't clean air conditioners over the years in Thailand? I have seen how dirty they look. And do you know how harmful it is for your health & that it increases the risk of malaria, dengue and other terrible diseases? The amount of dust, bacteria and dirt in air conditioners is horrifying here. Even in an expensive hotel!
- That is why I regularly monitor their cleanliness and serve them on time. I care about your health, even in such small details. I guess it should be pleasantly

About the object. Nuances

- The knives will be sharpened, and the dishes will be clean. I know that rarely it happens
- It happens that the house is rented cheaper. But right under the windows 5 times a day the gramophone with prayers will scream. Especially it happens from local. My objects are far from the loudspeakers and mosque. (Phuket is a village, and quite often poultry is walking next to the houses. This is what is everywhere except the most expensive hotels)

At whom to rent a house?

- I rent my houses. And the houses of my friends, in whom I am sure. Unlike other intermediaries
- Reviews of a large number of people prove - my guests are satisfied!
- You may have a serious misunderstanding from Thai of your wishes If you rent a house from him

How do I check the object for you?

- If there is a barbecue grill
- If water heaters and plumbing fixtures are operating
- If there are towels and toilet paper
- If they clean the rooms (floor, dust, toilet, kitchen, dishes, plumbing fixtures) and the entire object
- Honesty. Bed linen is washed in laundry
- If there is any gas in the balloon for cooking. Since it is often forgotten to put
- Honesty. The pool is cleaned 2 times a week. This is enough in 95% of cases. If you don't wash before going to the pool and further pollute it, violating the rules of using the it, this will cause problems with the purity of the water. And you will have to wait a little while the pool is cleaned again

Other important details

You should know

1. If you are too much demanding and used to the hotel service with the perfect cleaning, then in Asia you will be suitable only not less than five-star hotels. With the price for a double room from \$ 100 / night not on the beach. Only in this case you will have everything new, in perfect condition and perfect cleaning!
2. I am honest with you. It is impossible to clean a large house ideally for \$ 50. The ideal cleaning of a large house costs from \$ 100. Everything will be clean, but not perfect. But not like in a five-star hotel!
- 4.3 / 5 is my average cleanliness rating of 800 guests. And 4.6/ 5 - the overall average rating. And if the rating was 4.8 then I would become a super-owner according to the Airbnb site version.

Area

- See the video review of the beach "Bang Tao Beach copter review, Arkadii Djast by zandr"
- Pacification and silence are synonymous with the Bang Tao area. At the same time there is Patong with the most active club life on the island in 15 minutes of driving!
- You will find the most popular beach club CATCH Beach Club with pleasant music (the former Bliss) on the beach of Bang Tao. With children's and adult pool. Works around the clock
- You can use the large swimming pools from the Arinara or Sunwing on the beach. Entrance without passes. > 90% of guests enter freely
- You can ride horses and play with elephants on the beach
- There is no active traffic and constructions. There will be quieter and significantly fewer people
- This beach is almost deserted in comparison with other beaches from February to November
