INDIA SCIENCE FESTIVAL 2027

CALL FOR APPLICATIONS

Title of the proposed event
A tentative title would suffice at this stage

Introduction
Establish the context and objective of the event.

Science and technology concept
Explain the science/technology concept/model/experiment you propose to showcase at the event. Make sure to strike a balance between simplicity and depth.

Your approach
Mention the details of how you are going to meet the said objective and how you shall implement the event. This may include props, interactive activities, and strategies for audience engagement.

Value proposition
Mention what makes your approach/idea/implementation unique, and how you think the audience will benefit from it.

Support required from FAST India

This includes any consultation/implementation/logistical support that you may need from us.

Previous work

Add links to your previous work samples to enable us to better gauge your expertise in engaging with the audience.
