City of Chicago Film Office

312-744-6415

We are working closely with the Chicago Film Office and the Chicago Police Department to ensure a safe and positive filming experience. We will NOT block driveways, loading zones, fire hydrants, bus stops, or disabled parking zones. We will also maintain a fire lane for safety when necessary. The Location Department and the Chicago Police Department will assist residents in accessing their garages, driveways, and parking spots in any alleys, but might be momentarily delayed. We look forward to filming in your neighborhood and thank you in advance for your cooperation.

Sincerely,

The Location Department
