Terms of Service

Please contact me through Telegram or Discord

PayPal Invoice Only, USD, full payment after agreement is made and concept is discussed.

Lack of a reference sheet may lead to an increase in charge towards the commission.

None of my art is to be used in generated AI art without my permission

I do other art beyond what I have listed, you can always ask for something unique! I'm down to brainstorm!

Wait for me to contact you for updates, unless of course I fail to contact you within a timely manner.

I will ask you before starting if you're okay with me streaming your piece while I work on it. You may suggest edits on stream freely.

Once you buy it, it is yours. You may use it as you like. Or have it edited if you desire by yourself or someone else, but I must remain credited.

You will receive a refund if I fail to handle your commission in a timely manner, fail to contact you on delays, or if there is an emergency*

I have the right to stop working on your piece if you're rude to me and my time, or prove too difficult to work with and will not receive a refund.

*(Typically, if I'm inspired or receive good references I can pump out a piece within 1-3 weeks, or less.)

----- [♦] -----

Will Draw

Any species, including humans, robots, protos, synths, sergals
