

Time – spend it BETTER than you would your money. You'll never get it back or make more of it.

How you spend your time will tell you:

- ✓ **Who you will become;**
- ✓ **What you will build;**
- ✓ **What you will have.**

#1 LOOKING BACK: Capture where you spend your time for a week as you usually do. **Reflect** on how your time “spending” aligns with your stated priorities.

#2 LOOKING FORWARD: For the next week, go through this sheet and **schedule the non-negotiables and priority projects BEFORE each week begins**. For long-term projects – schedule several weeks/months in advance.

Refer to you values and yearly priorities when in doubt what to say **NO** and **YES** to.

This will tell you how much time you actually have and where your priorities and focus ACTUALLY are. What changes need to be done to align those and, ultimately, get the results you want in life?
