

## North Yorkshire County Council's food procurement strategy

North Yorkshire County Council's food procurement strategy is based on local and regional sourcing of food which supports local business, provides traceability of produce and contributes to the health and well-being of its children and young people. Furthermore;

- All meat and poultry used in school meals in North Yorkshire is supplied fresh into schools.
- All meat and poultry is sourced from farms in the Yorkshire Region.
- Our supplier is required to tell us where meat and poultry is sourced, down to farm level.
- We do not use frozen ready meals.
- Meals are made fresh everyday on school premises using fresh ingredients wherever possible in compliance with the Nutritional Standards for School Meals.

If you would like any further information about the school meal service please contact;
