

Part One—Create Your Digital Art

Use digital art software to create a digital image that uses at least

- **ten** layers that can be seen
- **two** types of lines
- **one** geometric shape
- **one** organic shape

Make sure to save your digital image as a JPEG file.

Place your JPEG here.

Part Two—Create Your Artist Statement

Artist:

Title:

Medium:

Date:

Answer the following questions to write your description:

1. Which digital art software did you use to create your digital art and what was at least one challenge you had when using the program?

2. What is the subject of your work? How many layers did you use to create your artwork?

3. Describe the types of lines and shapes that you used in your artwork.
