### **Abstract**

This article serves as the guideline for abstract preparation for all abstracts submitted to the Wayamba University Research Congress 2025 (WURC 2025). To ensure a uniform format, all authors must use the given template when preparing abstracts. You must submit 3 documents. The abstract (\*.docx and \*.pdf) must be submitted with the title-page (\*.pdf) document in electronic form via CMT to the editorial board (**for submission information, please visit: <https://www.wyb.ac.lk/wurc/>**) on or before the given deadlines. The abstract document must be prepared in MS Word. This could be a summary of the whole project including major findings (maximum 2 pages - B5 size). Include a statement of the purpose of your study, the research methods/methodology used to arrive at your results and/or conclusions, the results observed, and the conclusions drawn from your study. You may include one important figure or table within the page limit if needed. The submitting abstract document should include a Title; Abstract; Illustrative materials; Acknowledgements; and Keywords. The submitting title-page document should include the Author(s) information and Affiliation(s); the Corresponding Author's email address; Corresponding Author's contact details. **Note that, the Author's name(s), Affiliation(s); and the Corresponding Author's email address are not included in the initial submission abstract document for the blind review process.** Illustrative materials such as tables and figures are allowed. Use Times New Roman font throughout the abstract with 1.15 spacing between lines. The recommended font size is 13 pts for the title and 12 pts for the main text, Keywords and Acknowledgements. The main text should be justified on both sides. Please do not use footnotes. The length of the abstract should not exceed two B5 pages (word

count of approximately 600-750 words). Other specific guidelines for each section are given below.
