

## MAKING CLAIMS: CAPITALISM AND SOCIALISM

### Purpose

Practice your claim- and counterclaim-making skills. This will help you improve your ability to make strong, evidence-based claims, using what you've learned about the key features of capitalism and socialism.

### Process

1. Write a claim that responds to this question: *Which economic system does the most good for the most people—capitalism or socialism?* Support your response with two pieces of evidence and their citations (where you found the evidence).

## MAKING CLAIMS: CAPITALISM AND SOCIALISM

2. Now, write a counterclaim in response to the claim you made above. Again, support the claim with evidence and citations.
