

## UNIT 6 PLANTS

In this unit you are going to know more about parts of a plant and different types of plants.

### PARTS OF A PLANT

As you already know a plant has different parts: **roots**, **stem**, **flower** and **leaves**.

## UNIT 6 PLANTS

In this unit you are going to know more about parts of a plant and different types of plants.

### PARTS OF A PLANT

As you already know a plant has different parts: roots, stem, flower and leaves.

Draw a plant in your note-book and label the different parts.

## DIFFERENT TYPES OF PLANTS

There are different ways of classifying plants, but based on their **stem** we can say that there are three main types:

1. **Grasses**, they are the smallest plants.

2. **Bushes**, they are bigger than grasses.

3. **Trees**, they are the biggest plants.

Draw a tree, a bush and some grass in your note-book.

Draw a plant in your note-book and label the different parts.

## DIFFERENT TYPES OF PLANTS

There are different ways of classifying plants, but based on their stem we can say that there are three main types:

1.

### Grasses

, they are the smallest plants.

2.

### Bushes

, they are bigger than  
grasses.

3.

### Trees,

they are the biggest plants.

Draw a tree, a bush and some grass in your note-book.

Now it's your turn.....Label the Parts of a Plant
