

Counseling and School Psychology CSP

Approved Courses for IS3D Students

Discipline Description

CSP's programs create professional preparation communities committed to: diversity, equity, social and economic justice, academic excellence; research, scholarship, and inquiry; creating systems change; global citizenship; culturally affirming ways of living, learning, knowing, and healing. Our programs and faculty distinguish themselves through their leadership in developing: educational excellence, multicultural competence, professional integrity and expertise, innovative models and theories, diverse methodology for research and practice, evidence-based practice, local and international collaborations, and impacting our professions.

Lower Division Courses (choose 6 units)

Approved lower division CSP courses include the following (number in parenthesis indicates course units):

CSP 150 - Adversity, Resilience, and the Science of Well-Being (3)[GE]

CSP 240 - Career Development and Life Design (3)[GE]

The following courses in other fields may also be used to fulfill the lower division requirements. Note that a single course may not be applied to two different departments. Please note course offerings vary by semester, and not all courses will be available at a given time.
