Keywords:;;.....

Introduction

In the first paragraph, write a description of the research issue, phenomenon, interest, and significance, using information, research published in order to identify the current situation of knowledge or practice, relevant research in the past. Briefly to point out what has been found in the past and who was discovered by whom for the purpose of presenting that there are still gaps of research. (citing data from government agencies / research articles published 1-2 years / theory owner)

second paragraph: What is the research area, problem, need, or group characteristic of the research? What experiences or contributions did the researchers have in the area? There is research on the area. What is the target audience?

third paragraph: Write a summary of the research objectives or goals that will serve as a compass to guide the research [how?, where?, when?].

This research paper presents
(structure and content of the article to be presented It is usually written on purpose. or issues according to the topic of the article and benefits that will occur to academic circles or society)

Research Objectives

1.
2.
.....
3.

Literature Review

The authors should describe the findings of relevant documents, articles, research papers to demonstrate “knowledge gap” that has not yet been considered This research can fill that knowledge gap. Literature reviews must be fully referenced. It should also be analyzed and systematized the relationship of those literatures.

1.
2.
3.

Summary of the literature review to show that the authors took the theory/How are the concepts reviewed for use in research, in what areas?

Conceptual Framework

This research is a research study.
The researcher defines the research conceptual framework based on the concept/theory of.....together with The details are as follows.

Independent variables Process/Tools/Area/Target
Audience Dependent variable

Discussions

This image shows a full page of primary-ruled paper. It features ten sets of horizontal lines spaced evenly down the page. Each set consists of three lines: a solid top line, a dashed middle line, and a dotted bottom line. The pattern repeats from the top to the bottom of the page, providing a template for handwriting practice.

[illegible]

Knowledge from Research

Identify the body of knowledge that is the result of research. Synthesis in the form of diagrams, charts or concept maps with a concise, easy-to-understand format/structure description

[illegible]
