

Hi Mustafa,

I hope you are well! I am a long time subscriber of your channel and really enjoy your content. You are definitely second best to Mr Gilmour himself on YouTube for Pink Floyd content!

I am a guitarist myself, in my 20s and live in the UK. My video of yours would have to be the Echoes Gdansk funky part. The fretboard visuals in that were really cool and helped with the learning for myself a lot!

The reason I am reaching out is in relation to your Patreon account. I recognise that this must be the main source of income from all your hard work on your YouTube channel due to the copyright restrictions of the original music.

I would really like to help you grow your Patreon account so you can be better rewarded for all the content you make on YouTube, and also have a plan to help you with this. One of the things I have in mind would be a newsletter which you could promote to your subscribers which could contain fun things like a guitar top tip, motivation to practise, quick reviews on things like songs and equipment, and also to plug your Patreon. I would of course create and send you this newsletter weekly. I also have a couple of other things in mind that you could add to your Patreon tiers as well.

If you would like to discuss this more, please let me know and we can arrange a call sometime! Let's smash your \$500 target and go beyond together.

I look forward to hearing from you, and to watching your next video!

Kind regards,
