

QUANTUM LEAP ADVANTAGE (Q.L.A)

For Entrepreneurs who want to grow their business revenue to 7 figures monthly...

QLA is a 4-week private group coaching experience created for a carefully selected group of 12 ambitious entrepreneurs who are ready to move beyond inconsistent growth and build a more structured, measurable and scalable business, the primary focus is on the four areas that will help you improve your business revenue: *Mindset, Skillset, Godset & Strategy*.

Allow me introduce myself (*if we haven't met*), My name is Immanuel Zever, I am an Entrepreneur, Business Psychologist, Author and the Co-founder Synergy Academy. A bulk of my time is spent helping entrepreneurs unlock business growth and achieve quantum leaps in their business using psychological and biblical principles. The QLA system was what helped me while starting out as an entrepreneur to build a business that brought in *N1,000,000+ in revenue every 90 days* in the entertainment industry (2011-2013), in the fashion industry I used it again to build a business that brought in *7 figures in revenue every 90 days* (2014-2019) and in the sales industry I used it to generate *N120,000,000+ in revenue in 48 months* (2021-2025)... Here's what I will tell you; "the system works, if you're ready to work it".

The goal of QLA is simple: **To help you become the entrepreneur capable of consistently generating 7-figures in revenue every month...** QLA isn't another business training, **it is an execution-focused growth program** structured to help you identify what's holding your business back, strengthen the entrepreneur behind the business, and build the systems, skills and strategy required for the next level.

WHAT YOU SHOULD EXPECT TO WALK AWAY WITH:

By the end of the experience, you will have:

- *A clearer roadmap toward 7-figure business revenue*
- *A clearly defined ideal customer.*
- *A structured and better-positioned offer.*
- *A personalized brand strategy.*
- *Business success metrics connected to revenue producing activities.*
- *A customer database strategy / clearer customer acquisition & retention process.*
- *A communication and authority-management framework*
- *A financial freedom plan*

QLA IS FOR THE ENTREPRENEUR WHO...

- - Already has a product or service that people are buying.
- - Is making money, but the business still feels unpredictable.
- - Experiences good months and dry months and wants greater consistency.
- - Needs better systems, processes and structures.
- - Doesn't have enough clarity around the activities actually driving revenue.
- - Wants to improve marketing, increase sales, acquire more customers and improve profitability.
- - Is coachable, willing to implement and prepared to take responsibility for their growth.

QLA IS NOT FOR YOU IF...

- - You haven't started a business or made your first sale.
- - You want information without implementation.
- - You're looking for someone else to blame for your results.
- - You're looking for a shortcut instead of doing the work.

- - You're unwilling to receive correction, measure your results and change what isn't working.

THE QLA FRAMEWORK (M.S.G.S)

- 1) **MINDSET:** We'll examine the internal beliefs, thinking patterns and mental frameworks influencing your business decisions and results. Because sometimes what looks like a business problem is actually an entrepreneur problem.
- 2) **SKILLSET:** We'll identify the high-value skills you need to develop to increase your ability to create value, attract customers, communicate, sell, lead and grow. Because your income is often connected to the value you are capable of creating and communicating.
- 3) **GODSET:** We'll explore biblical principles that can shape how you approach business, money, leadership, work and success.
- 4) **STRATEGY:** We'll translate your vision into practical strategies, systems, structures and income-producing activities. Because clarity without execution produces nothing.

THE 4 WEEKS EXPERIENCE:

Over our 4 weeks together, we'll diagnose your business, fix what isn't working, then measure and scale the critical areas required to help you move from where you are to where you want your business to be, some of our focus will be on;

- ✧ **CUSTOMER AVATAR:** Identify and define your ideal customer so your marketing, messaging, offer and sales process become more intentional.
- ✧ **SUCCESS METRICS, SYSTEMS & STRUCTURES:** Identify the numbers that matter and connect your KPIs to the income-producing activities that move your business forward.

- ✧ **CUSTOMER DATABASE & TRIBE:** Build, manage and nurture your customer database so your existing relationships become a business asset.
- ✧ **THE TRAINING OF AN ENTREPRENEUR:** Develop the knowledge, discipline, character, thinking and capabilities required to operate at a higher level.
- ✧ **REINVENTION OF THE CREATOR:** Identify the habits, identity and ways of thinking that may no longer be sufficient for your next level.
- ✧ **UNLOCKING A 7 FIGURE MENTALITY:** Examine the thinking, structure and execution required to move toward 7-figure business growth.
- ✧ **IGNITING YOUR VOICE (COMMUNICATION MASTERY):** Develop your ability to communicate your ideas, position yourself as an authority and use your voice to attract opportunities.
- ✧ **WEALTH CREATION:** Examine your money mindset and the principles and systems required to earn, manage and multiply money.
- ✧ **BONUS:** Every participant who successfully completes QLA and fulfills the required implementation activities will receive a ***QLA CERTIFICATE IN BUSINESS EXECUTION***. My experience working with you has actually been a great one.

One of the biggest things that stood out for me is your simplicity and selflessness. You genuinely care about the growth of the people around you, and that shows in the way you constantly take your time to teach and guide people.

Through your sessions, you teach about growth and touch on different topics that are not just about the business, but also about personal development and life in general. One inspiring thing about you is how intentional you are about making sure everyone around you moves forward with you. That level of selflessness is something I truly appreciate.

One thing I have also learned from you is the culture of personal development, especially through the monthly reading of different books. It has helped me understand the value of learning and growth.

I may not read all the time because of work and taking care of my children but whenever I have the opportunity to read, I get a lot of value from it. The reading and personal development is something I truly appreciate.

Your impact goes beyond business. It has a positive influence on my life in general, not just in business.

To the Synergist

Knowing you and working with you has been one of the greatest gift life has given me and I do not take it for granted.

Your mentorship, encouragement and selflessness to my growth and that of any one around you is so remarkable that anyone who comes across you notices it without you even saying it. I remember wanting to set up my facebook page that year and not even having the slightest clue about how to do it. Omo you taught me everything I needed to know from using canva to creating a page to even understanding Ads and running them myself.

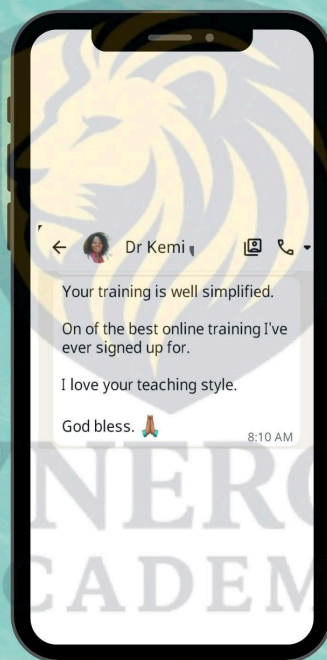

Or it is your interest in personally developing myself, you went out of your way even when you had nothing to gain.

Your mentorship sessions has guided me in making amazing financial decisions that pays off daily. The monthly and weekly newsletters always serves as a reminded whenever I feel stucked or overwhelmed.

Thanks for all you do, keep being you. The world is yet to behold what is coming...
