THE SPECTRA (STEM JOURNAL) RM. 440 MS. WILSON

Wednesday's

2:30-3:30pm

Club Description:

The Spectra is Wellesley High School's STEM Magazine, providing a platform for students to conduct research, write articles, and discuss emerging topics in STEM. Work in The Spectra culminates in seasonal issues published in print and on web in the fall, winter, and spring. Whether you are passionate about STEM or curious to learn more, The Spectra is a great place to share ideas, collaborate with peers, and grow as a writer and thinker. All are welcome, and no prior experience is needed!
