

PRIVACY POLICY for DOMIUS

Effective date: April 15, 2026

Domius is a property management application designed to help users manage tenants, units, contracts, payments, expenses, and related documents.

1. Data Collection

Domius does not collect, transmit, sell, or share personal data with the developer or third parties through remote servers.

All information entered into the app is stored locally on the user's device, unless the user explicitly chooses to export, share, or send such data.

2. Data Stored in the App

Depending on how the user uses the app, Domius may store the following information locally on the device:

- tenant and company details, such as names, email addresses, phone numbers, addresses, tax codes, VAT numbers, and notes
- property and unit information
- contract details
- payment and expense records
- attached files, including PDF documents and images
- backup files generated by the user or automatically created on the device

3. Authentication and Security

Domius may use Face ID, Touch ID, or device passcode authentication provided by Apple through the LocalAuthentication framework to protect access to the app.

Biometric information is not collected, stored, or transmitted by Domius. Authentication is handled entirely by the operating system on the user's device.

4. Email Features

Domius may allow the user to compose reminder or receipt emails through the device's configured mail services.

Emails are sent only when the user explicitly chooses to do so. Domius does not send emails automatically and does not store email content on remote servers operated by the developer.

5. Backups and File Export

Domius may create local backup files on the device and may allow the user to export or import backup files manually.

Any sharing, transfer, or storage of exported files outside the device is performed solely at the user's discretion and under the user's responsibility.

6. Third-Party Services

Based on the current version of the app, Domius does not include third-party analytics, advertising SDKs, or remote tracking technologies.

If this changes in future versions, this Privacy Policy will be updated accordingly.

7. Children's Privacy

Domius is not specifically directed to children and does not knowingly collect personal information from children through online services.

8. Changes to This Privacy Policy

This Privacy Policy may be updated from time to time. Any future changes will be reflected in the updated version of this document.

9. Contact

If you have any questions about this Privacy Policy, you can contact:
