

Bifrons Frenzy Morphic Field (Audio)

Benefits:

Healing the mRNA expression of the penile tissues like it never came in contact with plastics, genetic modified food, vaccines and any kind of endocrine disruptors + **Detox of all endocrine disruptors** (applying it retroactively since the pre-natal state till now along with the simulation of perfected puberty cycles initiated by the Uruz Trimmed Field)

Dragon Essence applying **solely and only** to our whole male reproductive system and cardiovascular system.

Simulation of the Dragonic Ageing Process solely and only of the whole male reproductive and cardiovascular system which is infused with the Dragon essence on the deepest level possible. Dragons grow continuously while getting older. So should the penis and the heart. The simulation of this maturation and aging process happens in the **Hyperbolic Time Chamber** functioning like the existing field.

Auto-Workout Simulation *as if done for months in a hyperbolic time chamber in the same manner described by the existing field by just a single listening session:*

Infrared light as the first step to heat up the tissues

“Infrared heat increases the extensibility of collagen tissues. Tissues heated to 45C (112F) and then stretched exhibit a nonelastic residual elongation of about 0.5 to 0.9 percent that persists after the stretch is removed. This does not occur in these same tissues when stretched at normal tissue temperature. Thus 20 stretching sessions can produce a 10 – 18% increase in length in tissues heated and stretched.”

Janus Bifrons Angion Methods (1.0 / 2.0 / 3.0), Macropulse, SABRE and Blood Flow Restricted (BFR) Techniques

The best working physical system for both E.D and M.E on the internet.

<https://www.youtube.com/watch?v=Wl0Fainek8w>

The **goal** is to give the listener of this field an energetic Auto-workout version of the **complete steps** of the Angion Method, Macropulse, SABRE and Blood Flow Restricted (BFR) methods as if done for a year just by one listening session.

Platinum (312 hz) -> solely and exclusively applied to the penile cells to support healing and regeneration of the tissues! That's very important. Nowhere else!

Gold (316hz) -> solely and exclusively applied to the penile cells to support healing and regeneration of the tissues! That's very important. Nowhere else!

Enhanced Nutritional Absorption of the cells of the penis and testicles in coherence with **amplified tachyon particles** (only of the penis and testicle cells) which are the most subtle level of the cells.

“Tachyon is said to be made up of subatomic particles capable of traveling much faster than the speed of light. Tachyon energy healing is considered to be the very first form of energy manifested by Zero Point Energy, a form that is not limited to a specific frequency or frequency spectrum. Instead, it is believed to include all energy potentials within itself. “

*Gabriel Cousens M.D., co-author of the book **Tachyon Energy: A New Paradigm in Holistic Healing**, theorizes that tachyon energy is capable of providing the Subtle Organizing Energy Fields of human beings everything it needs for optimal health and balance. In other words, because tachyon healing energy contains all of the positive potentials needed for optimal human health, the Subtle Organizing Energy Field of the human body can easily extract and utilize those potentials for optimal health.*

Nourishment of the following frequencies:

These frequencies are vital to penis growth.

Note: The smart field will decide how much the body needs these minerals in relation of how frequent the listener listens to this field. Example: 10 hours per day vs someone that listens to just 20 minutes per day.

Calcium (320hz)

Zinc (480Hz),

Potassium (304Hz),

Copper (464Hz)

Magnesium (341Hz)

Essential Nutrients (Energetic Signature)

Note: The smart field will decide how much the body needs these nutrients in relation of how frequent the listener listens to this field. Example: 10 hours per day vs someone that listens to just 20 minutes per day.

B1, B2, B3, B5, B6, B9 and B12 vitamins (helps with vascular and growth)

Vitamin K2 MK7 (Helps calcium go to the right places)

Amino Acid: L-Citruline (boost nitric oxide)

Forbidden Boosters Resonance

Using solely and only the resonance part of the forbidden booster (not the potency part!!)
to enhance the connection between the aura of the user and this field.

Resonance: Designed to create a connection (and significantly amplify this connection) between your own energy fields and the morphic fields that you choose to listen to. It works by creating a resonance between your own energy field and the morphic field that you choose, making it even easier for you to align with the desired outcome.

This resonance grows in connection/efficiency/power every Planck time (Approximately 5.39×10^{-44} seconds) by 10 fold too
