

Scratch Pad for Ideas

Throughout the Visioning Sessions in March, 2021, OUUC members may use this Google Doc as a “scratch pad” to capture ideas they have for what they’d like to happen at OUUC. Of course, the conversations in the visioning sessions and the accompanying online “padlet” will be where content that will inform the Vision, Mission, and Ends will be input. So, this scratch pad is not for input into the Vision/Mission/Ends process. Instead, this is the place to record ideas for projects, initiatives, improvements, etc.--implementation-level stuff that’s different from the higher strategy-level vision, mission, and ends. Please put your own name by each idea you submit. At the end of this week, consultant Jake Morrill’s administrative assistant will look over this document, erase any ideas or comments submitted without a name attached to it, and then will share the document with Rev. Mary Gear, who can decide whatever she’d like to with it, if anything.

To keep some kind of order, this document is separated into five categories: within, among, beyond, throughout, and process. The last of these, process, is for comments either on this vision, mission, and ends process, or for ongoing congregational process, up ahead.

WITHIN

AMONG

BEYOND

THROUGHOUT

PROCESS
