

MCKA Newsletter

My teacher gave our class an assignment to create a newsletter in Microsoft Publisher. I started by choosing a template that I edited the colors, sidebars, titles, and other boxes on. I decided to write about our student leadership program, Student House of Representatives, the 4th District Choir performance students participated in Ransdell Chapel at Campbellsville University, our behavior reward system Live School, and Ham Days, a festival in my community. I put the contents of the newsletter, important upcoming events, and the lunch menu for the following week in the sidebars. I had an image for each of the stories so the newsletter was a little more interesting. Finally, I had a sidebar that had my contact information and the credit for the images.
