Which permissions are needed for Plagiarism Guard

When you use “Plagiarism Guard - Plagiarism and AI Text checker” for the first time, you’ll be asked to accept the minimum-required permissions.

Required permission	Explanation of usage
Connect to an external service	We need to request data from an external service, specifically for getting a response from an AI service.
Display and run third-party web content in prompts and sidebars inside Google applications.	To show custom UI in the Google Workspace editor or other Google Workspace applications.
View and manage documents that this application has been installed in.	To read and write data in the current Google Doc document.

Why does Plagiarism Guard need those permissions?

“Plagiarism Guard - Plagiarism and AI Text checker” is integrated with G Suite apps like Google Docs. It requires access to the current documents a user is viewing. “Plagiarism Guard - Plagiarism and AI Text checker” only requests the minimum-required permissions that are essential for it to function optimally.

“Plagiarism Guard - Plagiarism and AI Text checker” does not have access to your Google account or your password, only to your email info.

Can I review or revoke those permissions?

Absolutely. If you need to review the permissions you granted to “Plagiarism Guard - Plagiarism and AI Text checker”, you can do so by going to Google Account -> Third-party apps with account access -> Manage third-party access. There, you can change or revoke the permissions.
