MakeUofT 2022

Video Demo Instructions

Hello Hackers!

For judging, you must submit a 3-5 minute video demo. The purpose of this demo is to show off your project to the judges, and prove why you should win awards! To make your project easy to assess, please use the following checklist to create your video content!

For your video demo, ensure you:

- ☐ Include screenshots or a video of your project
- ☐ Explain how your project qualifies for the prize categories you are submitting under
- ☐ Demonstrate what your project does (show the functionality of your project!)
- ☐ Describe how you built it and the different technologies/platforms you used
- ☐ Explain any challenges you faced and what you did you overcome them as a team
- ☐ Include any areas of improvement and the next steps if you had more time

Extra things to include:

- Explain how the team came up with the idea
- Explain how did the team manage to split the work on different aspects of the project

If you have questions about your demo, or want to run through your demo 1-on-1 with a mentor, attend the drop-in Presentation Tips/Hacks.
