

JSRF: Jet Set Radio Future Test Run Rules (Xbox)

Times are determined by the in game timer (timer displayed by the game itself) to the hundredth of a second.

Runs must be played on the following platforms:

- An Original Xbox
- A Softmodded Original Xbox
- An Xbox 360

Runs must be played on the following versions:

- The vanilla game
 - The latest IGT Mod (currently 2.1)
 - The On-Screen Display Mod
-

Runs played on any other modded .xbe are not allowed.

*Runs played on an Emulator are not allowed.

Modifying a character's .bin file is not allowed.

Use of Turbo controllers is not allowed.

All other game modifications that directly affect gameplay are not allowed.

As of May 9th 2020, all runs must have recorded proof, and all video must have accompanying audio. The quality of your proof must be acceptable. If you are unable to provide proof/unsure of your quality, but still want to submit, please contact us on [Discord](#).

Speedometer

Modifying the texture of the in-game speedometer is not allowed.

Use of external visual guidelines attached onto a TV or monitor however, are allowed.

✓ A sticky note is colored black and attached onto a TV to mark points on the speedometer.
