

K.I.S.S. - Team Member

The **Knowledge in Social Skills (KISS) Event** is about growing socially and emotionally. It helps participants recognize, express, and manage their feelings while learning how to build stronger, more meaningful relationships. At its core, the event explores three themes: **Self-Awareness, Relationships, and Love**. Through this journey, participants gain a deeper understanding of themselves, others, and what it means to connect.

Team Member

The Knowledge in Social Skills (K.I.S.S.) Event is all about **social and emotional development**. We explore what it means to grow as individuals, build meaningful relationships, and embrace love in its many forms. Through immersive sessions, participants gain tools for self-awareness, connection, and emotional intelligence, skills that last far beyond the event.

To make this journey impactful, we're looking for curious and motivated people to join the team.

This is your chance to dive into topics you care about, transform knowledge into engaging experiences, and even step on stage as a trainer in future editions of the KISS Event.

Tasks:

- Research meaningful topics and theories related to Self-Awareness, Connection, and Love (this can be as simple as reading a book, exploring psychology, or diving into articles and talks).
 - Design sessions that inspire participants at the KISS Event, ideally delivered by you.
 - Contribute to the Session Guide, helping to shape the event's overall learning journey together with the team.
-

Requirements:

- Curiosity and openness, you enjoy exploring human behavior, emotions, and relationships.
- Creativity and motivation to design impactful learning experiences.
- Basic communication and collaboration skills.
- Interest in psychology, personal growth, or emotional intelligence.

Although helpful, it is NOT a requirement to be a Trainer. Motivation is most important here and you can always learn along the way.

What you'll gain:

By joining the KISS team, you'll not only gain hands-on experience in session design and facilitation, but also embark on your own personal growth journey.

- Deeper knowledge of human behavior, self-awareness, and relationships that can help you understand both yourself and others better.
- The chance to grow as a trainer, potentially leading sessions at future KISS Events.
- Opportunities to discover new perspectives, reflect on your own life, and become more grounded and self-aware.
- A supportive space to personally develop, become happier, and take steps toward becoming a better version of yourself.
- Strong international connections with like-minded people who share the same curiosity and passion.

Mandate:

The mandate starts in December 2025.

Interested?

Please apply by filling out the form **[Insert Link]**

Deadline: November 30th, 23:59 CET

In your motivation letter, please include:

- A short introduction about yourself
- Your experience in ESTIEM (if any)
- Why you want to join
- What makes you a good fit for this position
- What you would like to learn or how you want to personally develop yourself

If you have any questions, don't hesitate to reach out to
Max Sturkenboom (max.sturkenboom@estiem.org / +31642865267)

Promotional Words

Do you want to explore human behavior, connect more deeply, and design sessions that inspire real growth?

Join the KISS team and help shape the next generation of emotionally intelligent people..
