

Pokemon Empire Sidequest/Event Guide

Hello all, and welcome to my sidequests & events guide. I hope you find it helpful. Just some things to note:

- This guide aims to include a comprehensive walkthrough of all the game's sidequests, and how to get each event Pokemon. In each section I'll include a walkthrough, and if applicable the rewards from the side quest and also any requirements needed to initiate the sidequest.
- If we have missed something, or you feel that some wording could be changed to make it easier to understand, feel free voice your concerns on discord
- Sidequests in Illyria and Antares have their own guide in the compendium. Quests here will only include the ones that are not on the respective guides.
- Also, I won't be covering most overworld pokemon in this guide, since those would just clog up the document for no reason and the focus of this guide is Sidequests.
- Secret quests are secret, but there will be a hint to help the player.
- **Current guide was revised in episode 12.5 If you are playing with a later version, some things might have changed.**

Hello there this is your guide. The entity you will blindly follow for the next couple days, weeks or even months. I am here to warn you that questions may look as the story progresses and certain events unfold. Some of these events will be very clear, but others might not, thus if you want to complete quests, don't wait till the end of the story to finish it.

- **Your guide here. I come for thee with an important message.** Completing side quests will not only reward you upon the quest completion, but will also enable for future quests and rewards. In fact, in Chapter 9, an NPC will check for how many you have done for each of the first eight chapters. If you've done enough (in order: 7, 4, 7, 7, 7, 4, 7, 4), you will not only receive a Lv5 Mudkip w/ 24 IVs across the board, you will have a side quest done for Episode 9 AND increase a variable that makes completing Ashe's side of said episode faster. There may be more NPCs in the future that check your side quest completion on each episode, but keep in mind, if you had a save prior to at least v9.5, you can

ignore this, as the Pokegear function to check quests and the variables haven't been implemented then.

Episode 2 Sidequests

Prodigal Son quest + Moon Stones

- In the Crimson Village, head to the axe stuck in a tree stump. Interact with it to get Axecalibur, the game's version of Cut.
- Now, enter Calvera Cove and go north to Calvera Lake. Enter the cave there to get into Calvera Tunnel.
- Walk down the set of stairs then immediately go north, following the narrow green path. You should end up at a green rock. Interact with the rock to get some Stardust.
- Now, head back to Polaris. Head into Polaris Pass, but go downwards as soon as possible to reach some cut trees. Cut them down with your new axe.
- You'll reach a small set of houses. On the floor outside is an Eject Button.
- Enter the northern house and speak to the explorer inside. He'll trade your Stardust for a Moon Stone. (Note that this trade is infinite, so you can get as many Moon Stones as you want as long as you have the necessary Stardust, in Polaris, if you have looked for hidden items you should encounter 1).
- While you're in this area, there's another thing you can do; enter the southern house and speak to the guy in the corner. He'll want you to deliver a Silk Scarf to his parents.
- Of course, you can just keep the Silk Scarf for yourself and not do anything more, but we're all moral citizens here who get rewarded for doing the right choices,

right? Anyway, go back to the Crimson Village and speak to the elder. He'll let you keep the Silk Scarf.

- Return and inform the son about what happened.
- The last step isn't strictly necessary, but slightly changes some story content in Episode 9.

Dank Bong "Quest"

Requirements: 1,000 dollars, not beaten Rose

Rewards: None until Episode 7

- Go to Calvera Cove and buy the Dank Bong from the eastmost vendor for 1,000 dollars. Yeah, that's all there is to this part of the quest, but it's important to do this before beating Rose or else you won't be able to get the eventual rewards as of this version.
- You may wish to buy at least one for yourself if you are planning on using Fling; Dank Bong, when flung, has a base power of 150 - the highest in the game. In fact, while we're on the topic of Fling, here are images for the base power of items flung (as of Version 12.5):

Talking Ice Cream

Requirements: Talked to Rose for the first time

Rewards: Vanillite

- Go to the Calvera Underground and speak to the black haired guy. He'll ask you for 5 Tiny Mushrooms.
- The first one can be found in the Calvera Underground by interacting with the green mushrooms in the bottom right corner.
- Another one can be found in the underground area with Skorupi in it, at the table in the bottom right.
- The remaining three can be found in Calvera Cave by interacting with the various mushrooms there.
- If you really can't find them, you can try to get them from the roulette in the Foongus Amoonguss.
- Return to the guy to obtain Vanillite.

A Clear Swablu Sky

Requirements: Spoken to Rose in Calvera Underground

Rewards: Swablu

- Go north from Calvera Cove to Calvera Lake. Alanah will be on the stretch of land that juts out into the water.
- She'll challenge you to a battle. This fight can be fairly challenging, so be prepared.
- After beating her, you'll be given a Swablu.

Calvera Key Errand

Requirements: Calvera Key (obtained through story)

Rewards: Pretty Wing, Leek,

- Go back to Calvera Cove and enter the most southwest house using the Calvera Key. Pick up the Pretty Wing and the Leek here.

Straight Line Shooter

Requirements: Neon Sunrise

Rewards: Nosepass

- Go to the house to the right of the stage and bring the Nosepass inside a Neon Sunrise. It will join you.
- If you don't have a Neon Sunrise, you can purchase one from the Foongus Amoonguss for 2,000 dollars. Alternatively, there's one hidden in a rock in Calvera Cave and one behind a red tree near the Scarlet Station's outpost, assuming you haven't used either or both yet.

We All Float Here

Requirements: 400 dollars, Axecalibur

Rewards: Drifloon

- From the eastmost vendor in Calvera Cove, buy an Air Balloon for 400 dollars.
- Enter the house just northeast of said vendor and give the bug catcher the Air Balloon.
- Now head to the Scarlet Station and head north towards the outpost. Drifloon will be to the left of the outpost behind a cut tree at night.

Here Comes the Sun

Requirements:???

Rewards: Sunny Day™ , 1 of each Apricorn, Larvesta

- Every tree blocks a path
- Episode 2 secret quest

Royale Rook

Requirements: Enter North's Base in Scarlet Station

Rewards: Wattrel | XT03 and/or XT04. (Kaleidoscope and Chicanery)

- This is a time limited quest that needs to be done before beating Rose in ep2.
- To the south of Calvera Core (requires cutting a tree) you can find a royale rook.
- Interacting with the rook will trigger many routes:1) the player can say nothing and leave;. 2) Can give info on Rose or North; 3) Can give info on both; 4) Fight the rook.

- Option 1 changes nothing.
- Option 2 gives a Wattrel and reduces RP with North.
- Option 3 gives a Wattrel, one of xT (based on who the player chose to help this episode North or Rose) and reduces Rp with North 2x.
- Option 4 has split routes (it is not an ez battle); 1) Win and taking the deal gives a Wattrel and no rp loss with North; 2) Win and taking a better deal gives a Wattrel, one of the xTs and no rp loss with North; 3) Win and turning him in, gives rp with North and both Xts (talk to one of soldiers at the base).
- Winning the battle and asking for a better deal or turning the rook in loses rp with Geoffrey.

Notes:

- While we probably don't have the money yet (u need to be crazy to farm that many clampers), expending a lot of money in vending machines (start this episode, but it can be done in any other episode machines) will net a Garbodorite. For an idea it is almost 40 Kommo-o Kolas, but every 'drink' you buy from the vending machine does add into a variable that counts up until you reach a prerequisite for the Mega Stone.
- Since you won't be able to return to Calvera after a certain point in Episode 6, do your due diligence and try to find as many of the hidden items as possible. This'll include two Honey in Crimson Forest North, of which you'll need to use one for a quest in Episode 6 later on.

Episode 2 Event Pokemon

Shiny Phantump Event

Requirements: Gain access to the Crimson Village via story

- Listen to the... questionable stuff he has to say, then make your choice.
- I think it goes without saying, but choosing "ADD the Ho" gets you Plusle, while choosing "SUBTRACT the Bro" nets you Minun.

Fletchinder Trade

Requirements: Wendrifr (Mindigo can be caught in Polaris Mine 2F; you need to level one to level 24 and have it have higher defense than attack to evolve it into Wendrifr)

Cufant Event

Requirements: Spoken to Rose in the Calvera Underground for the first time

Rewards: Cufant

Rewards: Shroodle

- Walk across the bridge near the well in the Crimson Village and keep walking east until you enter Calvera Cove
- Shroodle will be near the firebreather (note that it sometimes walks behind the tree).

Episode 3 Sidequests

Most of the Episode 3 side quests in Illyria as well as most event Pokemon can be found in [Illyria Walkthrough12.0](#). In this part I will only make a quick mention of items obtained during these quests and some smaller quests that are not related to this episode gym commission and are not mentioned in the guide.

Whiteout Blackout

Requirements: Beaten Rose

Rewards: Monkey's Paw, Safety Goggles, access to most of Explorer's Guild, access to later Ezrael quests

- Return to the Explorer's Guild in Polaris Point and speak to Ezrael. He will give you the Safety Goggles and allow you to access Polaris Mine 3F.
- Go to Polaris Mine 3F and save before going out of the west exit.
- As the game explains, you have a limited amount of time to stay on the Polaris Slopes until you white out and get sent back to your last save. I cannot stress enough, **do not save on the slopes**.
- Since you are already here, get an extra male Skiddo for a later quest.
- All you have to do is navigate through the slopes to get the Monkey's Paw at the end and get back before whiteing out. It may take a few attempts, but isn't too tricky overall.
- Go back to Ezrael with the Monkey's Paw and he'll rank you up! This allows you to access most of the Explorer's Guild and unlocks some future quests.

Notes:

- Solstwins is the secret pokemon of this episode. While not a quest per se, you must find items and have faith. (note one of the items is time limited, failure to get it now, will lead to the mom only being obtainable at ep 8 or later). You can get more than 1 Solstwins if you obtain the items spread across the episodes.

Episode 7 Sidequests

Spiraling Out of Control and Ditto Quest 5

Requirements: Beaten Roland, 10,000 dollars

Rewards: Trapezohedron, Odd Keystone, advance ditto quest

- After beating Roland, head into the Stakataka Pizzeria (you have to pay 5,000 dollars for unlimited access). Go upwards and witness a small conversation.
- Head to Toliman and speak to Arthur, who's in front of the entrance to the Eyrie.
- Enter the Eyrie Root and speak to the man at the end. He'll tax you 10k, 5k or nothing depending on Rp dollars to enter.
- Finally enter the Eyrie Spiral. This is a fun puzzle and one of my favorite areas in the game, so I'll let you work through it yourself. Interact with all Noiverns in order (it is a lot of trouble to go back after climbing to the top). The last Noivern will be a ditto.
- If you have done all the other 5 ditto quests, u get a ditto. (can control F Ditto quest to find the others).

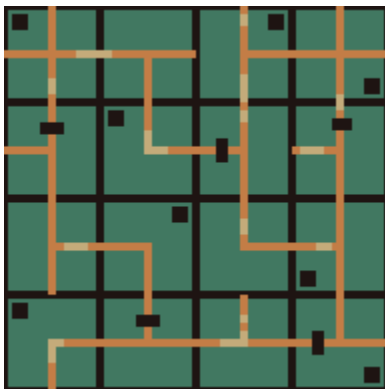

- Near the top of the Spiral, just before you get to the Trapezohedron, pick up the item on the ground, getting you the Odd Keystone. (This isn't actually an Odd Keystone, it's just a duplicate for this quest. It is otherwise functionless).
- When you get to the top, interact with the big blue crystal. The choice you make only affects relationship points. You'll always get the Trapezohedron.
- Return to the guild member who gave you Unown in Polaris and show him the Odd Keystone to receive an actual Odd Keystone, which you can use to evolve Unown.
- Additionally, you can head back to the guy in the Stakataka Pizzeria and speak to him to start a new quest. He'll tell you to meet him at the Industrial District pokecenter.

Misdirection

Requirements: Completed "Pour Me Another" quest, spoken to Simon in the Lusitanian.

Rewards: Beedrillite, a fossil or Silver Ingot and \$\$

- At night, you'll find Shawn and Gus standing outside the shop you first met them in.
- They'll tell you to head to the SCCL and search for suspicious activity. Head to the roof of the SCCL (speaking to Simon gives you access to the 2nd floor and roof) and interact with the box to get the Diversion. Also on the roof is an item that can be a Silver Ingot or a Helix, Dome, Armour, Cover, Root, Claw, Plume or Skull Fossil.
- Head to either of the entrances of the Lusitanian and speak to Shawn or Gus. Now go speak to Shirley, who is behind the Lusi.
- Enter the security room of the Lusitanian and make your way to the camera feed. There's various useful items scattered around the room, so you may want to nab them too.
- You'll need to solve a rotating tile puzzle. While there are technically multiple solutions, due to the way RPGMaker works, only one is valid, making this a very annoying puzzle. Here's the solution:

- Exit the Lusitanian and head to the postmodern pokecenter.

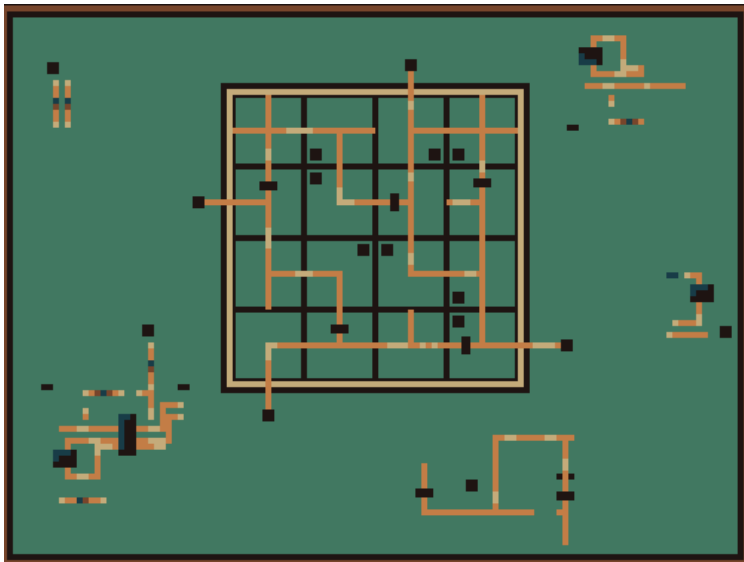

- Speak to Shirley and follow her into the hideout.
- You'll have to fight St. Bagel. This is actually a pretty damn difficult fight, so be prepared. (Hint: bring a Pokemon that can counter Prankster). Remember to put cream cheese on your lightly toasted plain bagels.
- Speak to Shirley to receive a Beedrillite and \$\$ dollars.

Legendary Heist!

Requirements: Completed "Dead Drops" quest, spoken to North, Alannah and Simon in the Lusitanian.

Rewards: Butterfrite, \$\$ dollars, a fossil or Silver Ingot

- You should find St. Bagel standing outside the postmodern pokecenter. Talk to him to receive the Diversion.
- Go to the roof of the SCCL and plant the Diversion (speaking to Simon gives you access to the 2nd floor and roof). There is also an item on the rood that can be any fossil bar Sail, Jaw or Old Amber, or a Silver Ingot
- Reconvene with Bagel back at the hideout and listen to his plan. Meet the cook and painter at night and they will tell you how to enter the Lusitanian.
- Enter the Lusitanian from the back to find your way in the security room. There's various useful items scattered about, but spend too long in the room and you'll be caught by the police, fined and sent to the Praetorium.
- Head to the security feed and solve the rotating tile puzzle. While there are technically multiple solutions, due to the way RPGMaker works, only one is valid, making this a very annoying puzzle. Here's the solution:

- Once you've solved the puzzle, hurry out (you can still be caught).
- Head back to the hideout and fight Shawn and Gus. After winning, speak to St. Bagel for a Butterfrite and \$\$ dollars.

Notes on the SCCL rooftop item

The variable that determines what item you get on the SCCL rooftop is shared with the Cult. Cash trader. This means you can manipulate what item you get with what the trader last gave you in return for Cult. Cash;

Fomantis = Helix Fossil

Milcery = Dome Fossil

Comfey = Armor Fossil

Drifloon = Claw Fossil

Stufful = Root Fossil

Big Mushroom = Cover Fossil

Retcoin = Plume Fossil

Green Tea Powder = Skull Fossil

Honey = Silver Ingot

Rare Bone = Silver Ingot

Black Market + Super Market

Requirements: Seen Zain's first speech, 5 Retcoin, completed "Finding Solace" quest

Rewards: Jaw or Sail Fossil, access to the Black Market (ability to buy most standard evolution items/stones, Arbokite, choice of Antares dragon Pokemon, Twisted Spoon, Spell Tag or Black Belt, Miltank, Platitudo and Skarmory).

- After witnessing Zain's first speech, head to the Concert Hall stage. Speak to Ariella at the piano and then to Hayley.
- Head to the bottom left of the Art Gallery 2F and speak to either of the two men sitting on a bench.
- Choosing to trust Vapor's morals gets you a Jaw Fossil. Saying murder isn't justifiable gets you a Sail Fossil.
- Now go to the Loading Docks via the metro. Speak to Hayley, who's outside a warehouse.
- Head inside the warehouse and enter the Black Market. In order to enter, you'll need to give 5 Retcoins. Expensive, but well worth it considering the goldmine of good stuff you can get in there. Retcoins can be found in hidden locations (for example, one can be found hidden in the warehouse) or won at the roulette at the Foongus Amoonguss.
- When inside, there's various things to do. Speak to the gang member in the top left and give him the Dank Bong. In return, you'll receive the Twisted Spoon if your Serpents relationship variable is 2 or above, the Spell Tag if it's equal to or below 1 but above -2 or the Black Belt if it's below or equal to -2.
- Read the piece of paper on the table below him. The woman at that table will sell different apricorns.

- Defeat the gang member in the bottom left (he's deceptively tough) to gain access to the two safes. One safe gives you an Arbokite and the other gives you your choice of an Antares dragon Pokemon.
- From the woman at the bottom middle, buy the Solace Shroom. She also sells various mulches for crafting.
- The gang member in the middle will sell you three different Pokemon. First, he'll sell you Miltank for 8 different kinds of shards. Easy enough to obtain from mining. Next, he'll sell you Platytudz for 2 Star Pieces. Finally, he'll trade you a Skarmory for a Hitmontop.
- The lady in the bottom right sells Water, Thunder, Ice, Sun, Moon and Expan Stones. The gang member above her will sell you Monkey's Paws, King's Rocks, Sachets, Deep Sea Scales and Teeth and Reaper Cloths.
- If I'm not mistaken, all you need to do to complete the quest is read the paper, get the Arbokite and dragon, buy the Solace Shroom and buy all three Pokemon from the gang member. Once you're done, return to Hayley's office and speak to her. She won't give you any more rewards but that's fair, considering how much stuff this quest gives you.

Notes on the Black Market:

The Commitment Issue route will allow you to get to the black market at ep9. It comes later, but has greater rewards.

Evio-item Event

Requirements: None

Rewards: Eviolite OR Eviotine

- In the Loading Docks, just to the right of the black market warehouse, you'll see Ashe and Sylas. Head as close as you can to them to overhear their conversation.
- Choosing "Sylas is too apathetic" gives you -2 points on the Ashe/Sylas relationship variable (like Demetrius and Cheyenne, they share a variable). Choosing "Ashe is too overbearing" grants you +2 instead.
- Now grab that juicy great ball item that's been waiting for you this whole time. If your Ashe/Sylas variable is 1 or above, you'll get the Eviolite, else you'll get the Eviotine. Although which item you get doesn't strictly depend on your choice in their conversation, the points you get from that choice usually sways it.

Farfarato Away Pt. 2

Requirements: Completed part 1 of the quest, beaten Roland

- Head to the path you followed to find Pinsir for the first time. Follow the path to reach two stalls. Straight below them you'll see Pinsir in the bushes.
- Pinsir is next found directly to the right of the right stall, past the small patch of jungle and past the path into another small patch of jungle.
- Head behind the massive tree in the southwest. Pinsir is behind the tree, past the items, pretty much as far left as possible. You'll be put in an encounter with Pinsir

Rewards: Heracross

- Yeah... there's another one of these.
- Heracross can first be found southeast of the massive tree, right near the border of the map.

- Next, Heracross can be found just to the right of the ruins in the top left of the Soup.
- Heracross can then be found just to the left of the ruins in the top right of the Soup.
- The fourth place Heracross is at is right behind the massive tree, right next to the items.

- Choosing to fight will lead Quinn to run and trigger a fight with the rook (it is a hard fight).
- After the fight the player can: make a deal with the rook, netting xt 09 >> Stantlerite >> Genichassi (based on what you already got); Better deal will also grant a Muscle Band or Wise glasses; Turning him in, will teleport the player outside, if you return u can find a Cracked pot (Sinistia evo and Disembrain evo) and one of the the items based on what the player already has.
- Choosing to not fight the rook, will allow the player to give the desired item to the rook and get one of the 3 options based on what you still lack from the quest.
- In this scenario, if you haven't beaten Quinn in ep 4, you can fight her for fun now and have a shot at winning Banettite. Her team is still strong, but it is easier to beat now.

- There is another chance to get an eevee in ep11.

Episode 8 Sidequests

Notes:

- Vapour and Merchant quests aren't described here as they are main quest related.
- Shops and certain interactions may change depending on Ma`iq Rp. Ma`iq generally likes it if you are confident in your skills and help ppl over the region.
- Metal Morph or Dawn stone is sold on the shops depending on Merchant/Vapour rp. Merchant + = dawn stone and Merchant - = Metal Morph.
- Merchant and Vapour are the same Rp, so Merchant + also is Vapour - and Merchant - is Vapour +.
- There are a lot of interactions in this episode that will skew your points toward Vapour or Merchant, so it is possible to get both evo items by manipulating the Rp points. Help the poor is Merchant +, not helping is Merchant -, donating money Merchant +, looking for enlightenment is Merchant -.
- You can join the Guilds as soon as you unlock the right to fight Ma`iq. Joining them is based on Ma`iq and Merchant Rp. The more skewed you are on one side

of the Merchant Rp, the less likely you are to join the opposite Guild. If you have very high Ma`iq Rp you can join both guilds despite a very skewed Merchant Rp.

- You can choose to join 1, both or neither of the guilds. Currently (12.5) joining both Guilds lead to better rewards.

Torn Clothes options

This is not a quest per se. Just some useful info.

Rewards: xT 14 (asphyxiate), xT 15 (Consuming Wrath) or Rp

- This is an item found in the Glassland, past the factory to the east (i advise you only get the item when you want/need to use it, because if not someone might take it from you).
- There are 4 things that you can do with the item:
- Give to the embassy officer as a negotiation tool for the Merchant Main quest.
- Give it to Ma`iq after you already made contact with the Merchant leader and it will net xT14, advance main quest and some pts with Ma`iq.
- Give it to the Vapour Guild leader to advance the main quest.
- Give to a grieving father (to the north of the Glassland entrance) for xT15 and lose some pts with Ma`iq.
- Be Careful with option 3 and 4, because if you can't convince the embassy officer to make a deal by other means (related to side quests you did in the past and Rp with other characters) you will be story locked and have to reset to an older save.

For anyone that is having difficulty there is a pinned video in the discord help and questions for the body puzzle in this episode (main quest related), also going to put a pic here (but it gets a bit confusing in the end).

- Head upstairs and into the small room with a pool table on the bottom right. Speak to the guy.
- He'll battle you. It shouldn't be too difficult, though it may pose some issues if you've beelined it straight here from the end of episode 7.

Also having access to the black market means you can have infinite apricorns and you can use apricorns to craft cheap and powerful specific type balls (way better than Ultra ball if u plan ahead). Episode 11

I am lazy and there is a pretty good guide made by Angel that covers the entire of ep11(since the majority of ep11 side quests are kinda main quests) Link below:

[Flegetont Guide](#)

- Go no save route if you like a bit of extra challenge, some extra rewards and want to be story accurate. If you just want to speed through the story and are satisfied with what you got, go with quicksave on.
- Head out to the market first before doing too much of the main quest so you don't get locked out of a quest.
- Avaterra is the secret quest of the episode and it also rewards the player with XT 21 Ancestral Aspect. Hint: Some ppl give more than just gifts.
- Stone's strong team (aka the one you fight in Ep7) rewards you with a Druddite if you beat it, but honestly the greatest reward will be the mad respect I can give you if you beat it.
- Ampharos mega stone is limited to this episode, if you really want it, make sure to buy it.

A small complement to the Flegetont Guide, for those who are looking for the blue hair sightings:

Episode 12 Sidequests

Notes:

- **Moriah Mastery:** When you reach Evernahn for the first time, you will have restricted access to a pokemon center. Within this period, spread across Nebolan's Neck North, Nebolan's Neck and the Forgotten Fen there are up to 8 trainers that the player can battle (some mandatory, some not). The more trainers you beat before watching the scene with Oct and Mortimer on the Bridge to Moriah the more pts you get. These points will provide some benefits in this episode. You can lose battles, heal your team with items and swap mons in the pc, so it isn't that hard to get the 8 battles done.
- **Gladeholm Gauntlet:** If you disabled Quick Save, the Pokeball nearest to the entrance will have a Full Restore instead of a Full Heal. Next, the Pokeball just north of it will also have a Full Restore instead of a Super Potion, but only if you've beaten Octavius twice (once in Ep9, and again in Ep12). Then, if you have Moriah Mastery at 8, two extra Min Revives will be available to you - one east of the middle, and one on the top left table. If you've also completed the 'Dead Ringer' sidequest AKA Twin Towers = at least 4, northeast inside the building, you'll get another Min Revive to use.

- Umbra Gauntlet: By completing 10 sidequests throughout Ep12, three Super Potions will be replaced by Min Revives - one northwest, one northeast and one eastward. At the end of the gauntlet, you will get an Illyrian Moonshine. Defeating everyone successfully grants a Dynastic Vestige instead. If you've beaten everyone, but used North's invincibility skill from his Regalia, you'll get the Moonshine instead. Failing the Gauntlet AKA getting captured at any point will instead replace it with a Pokeball. Finally, by having Quick Save Disabled, after the scene with Soren concludes, go right to grab a Gladeholm Gear. If you've counted all grabs from all the Gauntlets + hidden in the overworld, it'll be enough for every reward you can exchange them for.
- At the very very very end of Umbra gauntlet there is one of the impossible fights. This one nets you 0 rewards (legit, only thing is an extra RP point). So your only reward will be joining the unofficial Hall of Emperors with the current only winner of this fight (@Ntc).

Guck you

- Get an item according to: Visionaries $Rp \geq 3$ (Balance Ball), $Rp \leq -3$ (Mixed Tape), if in between item based on if you defeated Oct in the hospital, if yes (Trapezohedron) and if no (Telurite Frame).

Striving for Egg-cellence

- You can also choose to deny this by first calling her a witch, then talking to her again and saying that you smelled witch. This grants you one Gladeholm Gear, locks you out of the quest but also turns on a switch called Witch-Scented, that may affect a future interaction(s). (Note: As of writing this, this interaction cannot be done. I've reported it so hopefully it gets fixed sometime soon. -Bread)

- There are a couple ways you can do this part. Get all the evidence (1F Bookshelf and sink; 2F refrigerator, bin and TV; the other 1F Ho-oH and table by the bed) This is enough, but on the last floor there is also a PC with a puzzle. Doing the puzzle alone is enough and will also unlock a save point (so you don't lose everything on your way back). You get two tries to clear the Pc puzzle. The pc by itself (without solving the puzzle) also gives 1 pt.
- Now you can choose who you want to give the evidence. Giving the evidence to the opposite leader will trigger a change in guilds. Shirley by the Pokemon Center gives Amaura and Bagel in the Omega Church gives Tyrunt. With quick save off the lvs are fixed and better.
- Quest not over yet. Progress more with the Main quest and head to GladeHolm.
- Return (you don't have to do a thing there), battle and talk to the leader of your Guild. If you return by losing a battle in the Gladeholm Gas, you get less \$\$\$.
- Get \$\$\$ and unlock the path for future quests.
