

Fall

Do you like to crunch leaves in your hand? If you do then you like fall. In my opinion, fall is the best season, because of the holidays, weather, and activities .

First of all I feel that fall is the best because of ThanksGiving and Halloween on ThanksGiving you eat turkey and a big feast, but on Halloween you dress up, disturb people for candy. Also I love the weather, it's not too cold or hot it's just right. Plus it's the right time to wear sweaters, pants, and blankets. Another reason I like fall is because of the activities, like leaf jumping, apple picking, sleeping longer, pumpkin patches and more. As you can see I have many reasons why I like fall. Do you like fall? If you don't, what's your favorite season?
