

## Activities at Vendelbo Jamboree 2024

We are looking forward to offering guides and scouts of all ages exciting, creative, challenging, funny and cosy activities inspired by all our jamborees since 1978. We have looked in our old boxes and in our lofts and we have found the cream of the crop activities for you. And we have left space in the programme for a few surprises throughout the week.

During the week, you can try a wide range of activities for all ages from age 3 (kindergarten guiding/scouting with mum or dad) to age 24 (rovers).

The activities are drop-in activities. That is, there is no need to register. But we recommend you keep an eye open to which activities are open and when during the week.
