- ★ [Orientation Schedule](#)
- ★ [IXL](#) - ("I excel") is a math & language arts practice website for K-12 (subscription based). It has unlimited questions on thousands of math topics and a comprehensive reporting system.

# **TIGER TRADES ACADEMY**

TIGER TRADES ACADEMY curriculum is designed to fulfill all graduation requirements. Emphasis is placed on core academics, classes including English, Math, Science, Social Studies, and Economics. TTA will be using the nationally recognized computer-based courseware of Odysseyware. In addition, individual/small group instruction will be available to assist students in achieving their educational goals. Teachers offer additional “all classroom lessons” once or twice a week. To strengthen core area academics and classroom environment.

TTA offers a wide range of elective classes aside from Odysseyware. The Odysseyware lesson design fosters ongoing collaboration between learners and teachers, enabling students to progress and practice at their own pace and receive support and guided instruction as needed. Teachers can also customize content to address specific learning goals and adjust instruction based on real-time reports that show how students are progressing through the material.

## **The W.O.R.K. (Workforce Opportunity Resource Kids)**

The W.O.R.K. (Workforce Opportunity Resource Kids) program will focus on real life skills such as customer service, basic plumbing, basic electrical, grounds keeping, custodial/maintenance, bookkeeping, and basic office skills. Students will have access to learning some of these skills at the TTA site and will also have the opportunity to apply the skills within the community and around the other school campuses as needed. Students will be graded on this portion based on a workforce rubric which would include attendance, quality of work, attitude, and overall performance. Upon completion, student will receive appropriate elective credit and a workforce certificate with the signature of the Superintendent. This certificate could be used with employers to show that the student has the basic work skills to function in a working environment.
