

Dependent: To lean on someone and can't live without them.

Accomplish: To finish or achieve something.

Nice definitions!!

Education is important to me!

One reason why education is important to me is because I feel more knowledgeable and confident.

Another reason is I feel confident in whatever subject we're learning.

Another reason is it also helps me in life.

Another reason is it helps me understand what they are saying in news and shows and videos.

That's why education is important to me.

Comments: Zeinab, these are good sentences. Now, you have to try to turn this **free writing** sample into a **structured** paragraph. We will discuss this in class.

Your main ideas are:

1. Confidence
2. Functioning in society.
3. Knowledge is key to what? (incomplete idea)
4. Now try to use these ideas to create a structured paragraph. (We will discuss this in class)

Education is important to me. Because, It makes me feel confident and makes me have a better understanding of things. For example, if I was talking to my son's teacher I could connect with them more. In addition to connecting with teachers I could help my children with school work and teach them if they don't understand. To sum everything up, education is very important to me and can be used in many situations.
