Workshops pages - acmcsuf.com/teams/*/ workshops

First created: Apr 16, 2024
Self link: https://acmcsuf.com/workshops-design
Proposal: https://acmcsuf.com/issues/1062
Authors: https://github.com/acmcsufoss

Overview

The Workshops page(s) will consist of each team's workshop slides from each semester/series.

Outline

Structure

- Similar to https://acmcsufoss.github.io/docs/workshops.html
  - Order would instead go Newest First
- Separated by semester/series

Possible Operations

Because it would be tedious to continuously make pull requests to update the site for workshops, there are a couple possible solutions to better the workflow:

1. Create a new bot command (most likely on /shorter bot) to put info into the Workshops page. Info would include link, title, description. Could also shorten the link in the same process.

2. Use the existing /shorter bot command and algorithmically sort
   the team if the link is a slideshow (more difficult)

Rough sketch of possible layout:

Open Source Software Workshops

Spring 2024

#	Workshop	Timestamp	Description
5	Intro to Java	2024-03-14	Best language!!!
4	Intro to VIM	2024-02-29	Best Editor!!!
3	How to Win Fullyhacks	2024-02-22	Best Hackathon!!!
2	Making First Contributions	2024-02-15	Make a Contribution!!!
1	Project Kickoff	2024-02-08	This is a description!!!

Fall 2023

#	Workshop	Timestamp	Description
8	How to Rizz	2023-11-23	Become an Alpha Male with Matt
