

Brick By Brick

A 3-Act Task

- 1) Watch [the video](#)

How many bricks are needed to fill up the wall?

- 2) Write down a guess and back it up with logic (not calculation)

- 3) What information do you need in order to solve this problem?

**** See Ms. Shusterman with your requests. If she has the info, she will share it with you, but only if you ask specifically for it!****

- 4) Solve - SHOW YOUR WORK. You can type it in this doc or use a scrap piece of paper.

- 5) Do you agree with their answer? Why or why not.
