

How to Get Free Credits on Sweepstakes Casinos

Searching for different ways to get free virtual currencies on sweepstakes casinos is completely understandable, especially when you consider that purchases are meant to be completely optional. We've put together this guide so you approach sweepstakes casinos knowing what to expect.

We cover all you need to know about getting free virtual currencies on sweepstakes casinos. You will learn how sweepstakes casinos give free virtual currencies through welcome bonuses, daily login bonuses, mail-in requests, social media giveaways, referrals, and many more. Let's get started!!

What Are Sweepstakes Virtual Currencies?

Before I go into the different ways you can get free virtual currencies on sweepstakes casinos, it's best to first explain what these virtual currencies are. Sweepstakes casinos make use of two virtual currencies for gameplay, and these include Gold Coins and Sweepstakes Coins.

- **Gold Coins (GC):** Gold Coins are the virtual currencies that are used for social play on sweepstakes casinos, and by that I mean they are strictly entertainment tokens. They don't have any monetary value, and they cannot be redeemed for prizes. You can choose to make an optional Gold Coins package purchase just to extend your gameplay time or move faster in VIP ranks
- **Sweeps Coins (SC):** Sweeps Coins are used for promotional play on sweepstakes casinos. Unlike Gold Coins, you cannot purchase Sweeps Coins directly, but you can get them for free when you make an optional Gold Coins purchase or through bonuses. Sweeps Coins can be redeemed for prizes once you've met the requirements set by the platform.

Usually, sweepstakes casinos will require that you playthrough your SC at least once, complete your verification, and have a minimum amount of SC before you can redeem them for prizes. It's also important that you note that some sweepstakes casinos may use a different name for their virtual currencies, but the core function remains the same.

A good example is Crown Coins Casino. This platform names the currency for promotional play "Crown Coins" instead of Sweeps Coins, yet it performs the same function as Sweeps Coins.

Ways to Get Free Virtual Currencies on Sweepstakes Casinos

Now that you understand the virtual currencies that sweepstakes casinos make use of, we can now go fully into the ways you can claim free virtual currencies without making any form of purchase.

No-Deposit Welcome Bonus

A no-deposit welcome bonus is the bonus that sweepstakes casinos give to new players after signing up on their platform. It's very popular amongst sweepstakes casinos, and it can be used to start playing casino-style games as soon as you finish the sign-up process on a platform.

To claim this bonus, all you have to do is to visit the sweepstakes casino, register using your email, social media account, or using your basic details. Please note that some sweepstakes casinos may require that you input a promo code to claim your welcome bonus, while others may not require one. A practical example of a sweepstakes casino that requires a promo code for claiming its welcome bonus is Stake.us.

Daily Login Rewards & Streaks

They are one of the most reliable and consistent sources of free virtual currencies on sweepstakes casinos. As the name implies, they are available for claiming every single day, although there are two ways of claiming them on sweepstakes casinos. Some platforms only require that you log into your account once every 24 hours and you're automatically credited with the bonus, while others may require that you manually spin a wheel and claim the bonus from your dashboard.

Daily login bonuses are usually small in value, but they're some of the most consistent bonuses you can claim on sweepstakes casinos.

Mail-In Requests (AMOE / Alternative Method of Entry)

In the [complete guide to sweepstakes casinos](#), I briefly explain how sweepstakes casinos are legally required to provide players with an Alternative Method of Entry (AMOE) to claim a bonus. To comply with this law, sweepstakes casinos allow players to request free Sweeps Coins by mailing a physical, handwritten postcard to their official corporate address.

There's usually a format to how the requirement is written, and you can find this in the sweepstakes rules of the platform you select. The instruction may look like this:

"Purchase a blank 4x6 inch or 3x5 inch index card or postcard and write your full legal name, registered email address, residential address, and the unique request code generated from your dashboard. Then mail the request to our head office"

While it's true that mailing physical postcards requires effort, the return value makes it worth it even more. For every request received by the sweepstakes casino, you'll be awarded anywhere from 2 to 5 free Sweeps Coins. The good part is that most sweepstakes casinos don't have a limit to how many requests you can send. So, you can send as many requests as possible.

Social Media Giveaways

This is one promotion you'll find on most sweepstakes casinos. These platforms use their social media pages, like their Facebook, Instagram, X, and Discord channels, to host

giveaways. This type of bonus is usually available weekly or monthly. But participating in social media giveaways does not guarantee that you'll get the bonus. Social media giveaways are completely free and fair, so there's an equal chance for everyone to win.

Participating in social media giveaways is usually simple because you may just be asked to like, share, and comment on a post, or answer a game-related question. At the end of the day, winners will be drawn, and if you fall among the lucky winners, you get free virtual currencies. Just keep in mind that social media giveaways usually have short expiry windows, so you need to be active to claim the free credits before they run out.

Refer-a-Friend Programs

One of the most rewarding ways to get free SC and GC on sweepstakes casinos is through the referral bonus. It's the platform's way of rewarding you for bringing in new players into their platform. All you have to do is go to your dashboard and copy your unique referral code, share it with friends, and if they register and make the qualifying purchase, you get credited with free SC and GC.

Some sweepstakes casinos may place a limit on the number of players you can invite to the platform, while others don't have a limit. If you find a platform that has no limit, then you've found a way to accumulate lots of free SC.

VIP & Loyalty Program

VIP or loyalty program isn't available on every sweepstakes casino, but on platforms that offer them, you get rewarded for your consistency playing on the platform. VIP programs are usually in tier levels, and the higher your level, the more bonuses and perks you benefit. One thing I like about VIP programs is the reward that comes with changing levels. As you move higher in ranks, you get credited with free SC and GC.

Just keep in mind that to progress through ranks, you'll need to play through your Gold Coins and Sweeps Coins on the casino-style games on the platform. As you play, you accumulate points and move up VIP ranks.

My Final Take on How to Get Free Virtual Currencies

Now that you know that sweepstakes casinos make available welcome bonuses, daily login bonuses, mail-in requests, referral bonuses, and several other options available to help you claim free virtual currencies, then it's a good time to get started.

Select the sweepstakes casino of your choice, enter the information required for registration, create your account, and claim your welcome bonus. If the platform requires manually claiming the daily login bonus, don't forget to claim the login bonus every day and participate in any of the other promotions available on the platform.

Sweepstakes Casinos Virtual Currencies FAQs

 Are sweepstakes casinos legal in the US?

Yes, sweepstakes casinos are legal in the US. Just note that there are a few states that still restrict the operations of sweepstakes casinos in their regions. These states include California, Connecticut, Indiana, Iowa, Montana, New Jersey, New York, Tennessee, and Washington.

What are the ways to get free virtual currencies on sweepstakes casinos?

The ways you can get free SC and GC on sweepstakes casinos vary. Some of the most popular ways are through welcome bonuses, daily login bonuses, referral bonuses, and social media giveaways.

What are the differences between Gold Coins and Sweeps Coins?

Gold Coins are the virtual currencies that are for social play on sweepstakes casinos. They can be purchased but cannot be redeemed for prizes. Sweeps Coins, on the other hand, are for promotional play, cannot be purchased but can be redeemed for prizes.

Can I buy Sweeps Coins directly from sweepstakes casinos?

No, you can not purchase Sweeps Coins directly from sweepstakes casinos. You can only get them for free when you make an optional Gold Coin purchase or through any of the promotions described in this guide.

How many times do I need to play through free Sweeps Coins before redeeming them?

This depends on the sweepstakes casino. Most sweepstakes casinos only require that you play through SC once before they become eligible for redemption, but others may require up to a 3x playthrough requirement.
