Important Information from Halifax Community College

The HCC Dental Hygiene Program is an ADA Accredited Program

The ADA has a uniform curriculum with similar learning experiences, admission and graduation standards. Graduates of the associate degree dental hygiene program will receive an Associate of Applied Science Degree in Dental Hygiene from Halifax Community College. Graduates of this program may be eligible to take national and state/regional examinations for licensure which are required to practice dental hygiene.

Curriculum Description

The Dental Hygiene curriculum provides individuals with the knowledge and skills to assess, plan, implement, and evaluate dental hygiene care for the individual and the community.

Students will learn to prepare the operatory, take patient histories, note abnormalities, plan care, teach oral hygiene, clean teeth, take x-rays, apply preventive agents, complete necessary chart entries, and perform other procedures related to dental hygiene care.

Employment opportunities include dental offices, clinics, schools, public health agencies, industry, and professional education.

Admission Policy

Admission for Associate Degree dental hygiene student:

Students are admitted to the Halifax Community College dental hygiene program in accordance with recommendations by the American Dental Association (ADA) Commission on Dental Accreditation. The college does not guarantee admission to every student who seeks admission. Completion of the dental hygiene curriculum does not guarantee success in passing the licensure exam.

A dental hygiene student must be admitted to the dental hygiene program in order to take courses for credit in any dental hygiene (DEN) course.

Admission to the dental hygiene program is limited to eighteen (18) students each August. Applicants must have submitted all required documents to the Admissions Office, including all test scores by January 21, 2022. It is the applicant's responsibility to ensure that all required documents are submitted by the established deadline. Deadlines, guidelines, and policies apply equally to all students. Halifax Community College does not maintain a waiting list. Applicants to the Dental Hygiene Program must reapply each year. Applicants who are not accepted to the Dental Hygiene Program for the current admissions cycle must reapply each year.

Application Process

1. Submit a completed Halifax Community College application

[2023 Dental Hygiene Admissions Information Packet](#)

Applications may be obtained on campus at the admissions office or online at <http://halifaxcc.edu/StudentRe/Admission/>. Transcripts from high schools and/or other colleges or universities that you have attended must be submitted with the application. Only official transcripts will be accepted by HCC in a sealed envelope. Transcripts for courses taken at HCC do not have to be requested. On the application, indicate your chosen program of study by putting a check in the box beside Dental Hygiene A45260. A signed copy of a social security card is required for application to be considered complete.

2. Complete requirements for DRE 098, DMA 010 through DMA 060 or the equivalent course with a C or better. Complete the CHM requirement.

Students without credit for college courses should call the testing coordinator at Halifax Community College at 252-536-7254 to schedule an appointment for testing.

(Nash Community College testing has to be scheduled through Placement and Career Counseling Services. Please be prepared to submit a transfer of placement scores request in WebAdvisor to send to Halifax).

If placement tests (ASSET, COMPASS, ACCUPLACER) have been taken at another community college, it is the students' responsibility to ensure their scores are submitted to HCC by the application deadline.

Please see attachment of Competency Requirements.

3. Have coursework evaluated for transfer into the HCC dental hygiene program. It is advantageous (but not required) to take general education courses that are part of the dental hygiene course sequence prior to enrollment in the dental hygiene program. The general education courses marked with an asterisk (*) listed below must have been taken no earlier than 3 years prior to enrollment in the dental hygiene program.

General Education Courses:

*BIO 168	Anatomy and Physiology I	ENG 111	Expository Writing
*BIO 169	Anatomy and Physiology II	ENG 114	Professional Research/ Reporting
*BIO 175	Microbiology	HUM 115	Critical Thinking
*CHM 130	Gen., Organic, & Biochem		
SOC 240	Social Psychology		

**SCIENCE Courses must be completed no earlier than three years prior to application, no earlier than 2020.*

The possible transfer or substitution of General Education Courses must be evaluated by the Registrar's Office. Call 252-536-7227 for info

4. Provide evidence of an overall GPA of 2.8 at time of entry.

5. Attend a Halifax Community College dental hygiene *information session*.

6. Submit one of the following documents: *(Documents can be found on Halifax CC website)*

- Dental assisting experience documentation
- Dental office observation documentation (16 hours)
- Documentation of current enrollment in an ADA accredited dental assisting program

7. Submit a Dental Hygiene Health Sciences Application and Dental Hygiene Information Session Attendance Verification Form. This form will be provided at the Dental Hygiene Information Session.

To obtain a complete information packet call 252-536-7225.

Nash Community College Transfer Information

Students desiring to transfer and apply to the dental hygiene program at Halifax Community College must fulfill the requirements above by the application deadline on **January 27, 2023**. To be eligible to gain one of Nash's two seats in the program, students must notify Renee Martinez (contact information below) well in advance of the deadline.

Nash Community College Approved Substitutions & Course Information

- Nash can substitute **PSY 150 & SOC 210** together to take the place of **SOC 240**.
- BIO 275 can substitute for BIO 175.
- At NCC, BIO 175 has a prereq of BIO 110 or BIO 111 or BIO 163 or BIO 168. Students are encouraged to take BIO 168 before taking BIO 175, since BIO 168 is a requirement for the Dental Hygiene degree.
