

Setup for Grade Passback for Schoology and eSchool

Video instructions : <https://watch.screencastify.com/v/oreCsawFmOlqIVHJitGa>

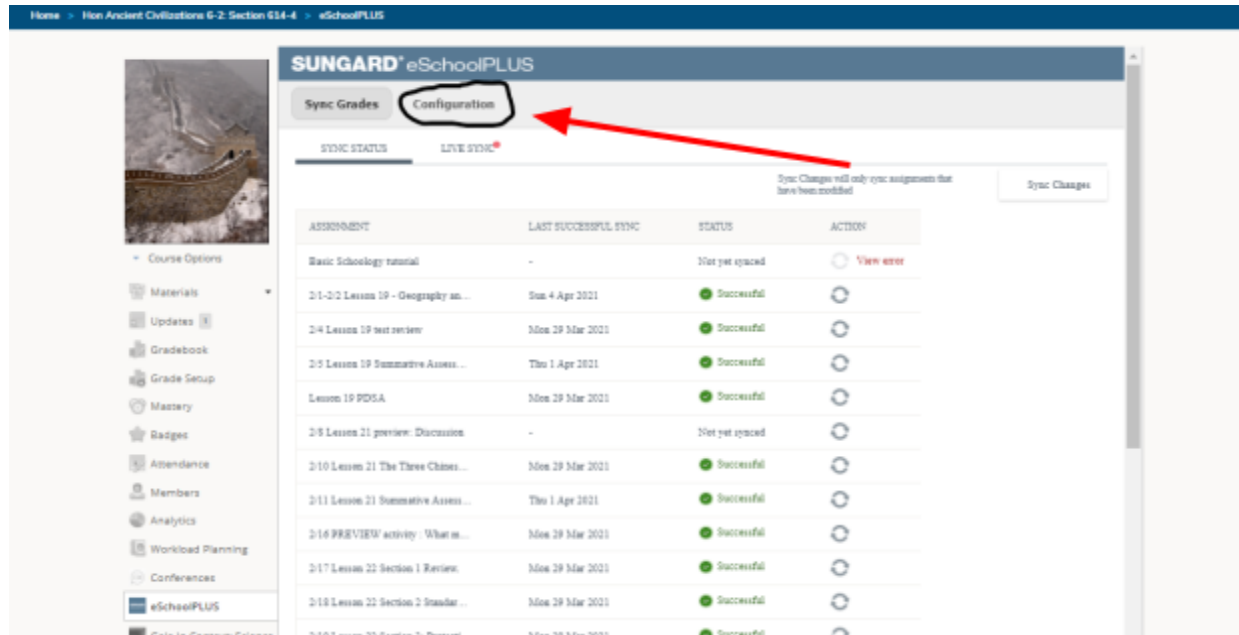

After setting up categories in grading categories in TAC:

Log into a Schoology course

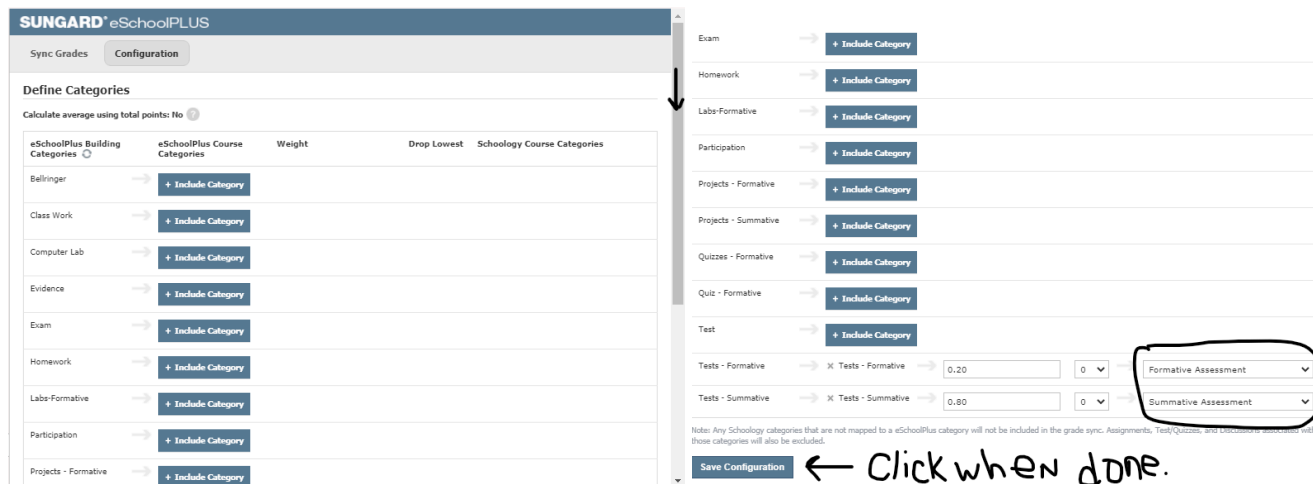

Click on eSchoolPLUS in the menu on the left side of the screen.

Click on the tab at the top of the screen that shows Configuration.

Here you will see all the categories listed in eSchoolPLUS for grading. It will show any of the categories that have been set up in TAC with weights. It is here that you will have to choose the correlating category in Schoology. Once you have chosen your categories in Schoology, click the Save Configuration button at the bottom.

This should be completed for each of the courses in Schoology.
