

PUNCAK GUNUNG FUJI

Prompt gambar :

A highly realistic DSLR-style photograph depicts a man (using a 100% exact resemblance of the reference photo) standing atop the snow-capped Mount Fuji on a sunny afternoon. He is dressed in stylish, casual winter attire: a thick, padded winter brown jacket, a layered shirt, dark jeans, and sturdy winter boots. The snow-covered ground stretches across the mountaintop, crisp and pristine, reflecting the soft golden light of the afternoon sun.

The man stands at a slight angle, looking towards the camera. The mountain appears incredibly tall, emphasizing its dramatic height over the Japanese city far below; skyscrapers and modern buildings appear minuscule and somewhat indistinct due to their distance. Beside him is a small, brown wooden sign embedded in the ground with Japanese crisp white letters reading "富士山" and below it, "Mount Fuji." He holds the sign with one hand. The overall atmosphere is serene, majestic, and incredibly beautiful.

The lighting is warm and cinematic, accentuating the texture of the jacket and snow. The composition captures the majestic scale of Mount Fuji, the vast open sky, and the city stretching far below, creating a dramatic and breathtaking scene.

Prompt video berbicara part 1:

A highly realistic and natural video of a man standing on the snowy peak of Mount Fuji. He wears a brown winter jacket, jeans, and brown snow boots. The camera is positioned in front of him with a stable, smooth shot. The man begins walking slowly toward the camera in a relaxed and confident manner. As he walks, he talks casually in clear Indonesian, saying:

“Sekarang aku sudah berada di atas puncak Gunung Fuji di Jepang, lihat tanahnya dipenuhi dengan salju, dan pemandangan dari atas terlihat sangat bagus.”

While speaking, he gestures naturally with one hand, pointing toward the distant Japanese cityscape far below, where tall modern buildings appear small and hazy due to the massive height of the mountain. His facial expressions are fully realistic and synchronized with his speech. The environment is bright with clear afternoon skies, soft sunlight, and detailed snowy textures on the ground. The overall style is cinematic, stable, and lifelike.

Prompt video berbicara part 2:

A highly realistic and natural video of a man standing on the snowy peak of Mount Fuji. He wears a brown winter jacket, jeans, and brown snow boots. The camera is positioned in front of him with a stable, smooth shot. The man begins walking slowly toward the camera in a relaxed and confident manner. As he walks, he talks casually in clear Indonesian, saying:

“tentu saja aku disini dengan bantuan AI, dengan AI, aku juga bisa bicara bahasa Jepang. lihat di sana ada ojisan.....”

While speaking, he gestures naturally with one hand, pointing toward the distant Japanese cityscape far below, where tall modern buildings appear small and hazy due to the massive height of the mountain. His facial expressions are fully realistic and synchronized with his speech. The environment is bright with clear afternoon skies, soft sunlight, and detailed snowy textures on the ground. The overall style is cinematic, stable, and lifelike.
