*each of the spectators takes a deep breath in*

*and a deep breath out  
every breath is a small wave on a big ocean  
crossing time and space  
the spectators continue to inhale deeply  
on each exhale comes a tone  
the spectators are humming  
they hum for as long or as short as they want  
in any tone they want  
as high or as low as they want  
the tones are resonating  
like waves on a big ocean  
waves that slowly calm down*
