

Procedure for when there's no agreement on which server(s) you are going to play

You and your opponent did not reach out to an agreement on servers?

Should this be the case, the ideal procedure is to consult the admin for further clarification. The steps that are going to be taken are disclaimed as follows:

1. Higher seed decides between picking A/B or choosing the server for the last map
2. When it's time to pick a map, one player chooses the map, followed by the other choosing the server, in alternate fashion. Example: For Game 1, A picks map, B picks server. For the next one, B picks map, A picks server.
3. For the decider map it's the last one left with the server being chosen on step 1.
4. Server options for this will be limited to the best pool possible when cross referencing regions

No Agreement Option + playing from outside the Americas

- When both are outside: Consult Cross Table, cross reference and pick whatever on allowed and remaining
- When only one is playing from outside: The player is “pulled” to the best server inside the Americas server and then cross-referenced with the other player
