

VIDEO SCRIPT
Walk Through Script Example

NOTE: The following is an example of a Walk Through video script. Keep these as short as possible (1 to 2 mins max). Start from the front of the house and walk straight to the kitchen. Highlight the biggest features of the house. Do not show other areas such as bedrooms, bathrooms or basements. The idea is to do a quick walkthrough and get your audience to reach out to see more.

Hi there!

My name is [realtor name] and I'm so excited to show you this beautiful listing...

[address]

in the highly sought-after neighborhood [neighborhood name] in [city]

[LIST FEATURES]

This gorgeous home features 4 bedrooms, 2 baths, hardwood floors, pot lights everywhere on your 9 foot ceilings.

Best part is the walkout from your master bedroom.

Now check out this massive kitchen!

Stainless steel appliances, updated cabinets, massive island and convenient eat-in kitchen area.

And check out this gas fireplace.

This home has it all!

California shutters behind me and open concept living area.

What more could you want?

This is the perfect home for you and your family.

So if you're in the market to buy. Then look no further.

Because this home is it!
