

Svpplicatione Popvlī et Tribwū Sparciae ad Parlamentvm Omnis Reparsiārvū en cōnsīderandō circvmsistantiārvū Sparciae

(oorp note this supplication/petition is irp written twice, in Ganalian and in Common Sparkstani, which is akin to an irl Mongolian-style language, except the Title which is in Papalian Katholian.)

We the people and the tribes of Sparkstan have long lived suffered under the ostensibly majestic yet oppressive rule of the Crown and their most noble Peers of the Realm. The Crown and their most noble Peers of the Realm have long taken their stewardship of the Realm for granted, leaving the lands once adorned of resplendent green and yellow grasses and bushes, dotted instead with the smoke and machinery of the mills and the oil rigs, leaving us with a thriving and yet exploitive industry. We do not denounce the industrialisation, we denounce the destruction of our once beloved Sparkstan.

Now, when the people of Sparkstan have risen to reclaim their sovereignty. His Majesty and his Peers do not stand idle, instead seeking to suppress the republican revolution and preserve their ancient privileges by force. We find ourselves at a decisive juncture in the struggle for our nation's liberty, with the future of the Sparkstan hanging in the balance.

As representatives of the Sparkstani people and good citizens of the Union, we submit this supplication to the Parliament of All Reparsia. We beseech ye consider the legitimate aspirations of the Sparkstani people and the necessity of Union assistance in securing the establishment and survival of a free and equal Sparkstani state. We beg the Parliament of Reparsia to recognise and extend its support to the Provisional Republican Government of Sparkstan, direct the Reparsian Army to assist the Government of Sparkstan and denounce the enemies of Sparkstan. We beg the Parliament of Reparsia to enable the representatives of the Sparkstani Republic for the time being to assist the Government of Sparkstan in Metropolitan Reparsia.

Supplicated by the people of Sparkstan:
