Title:

Genius Hour: Leveraging Technology and Personalized Education To Promote Engagement

Session Description

Wouldn't it be great to see your classroom engagement skyrocket? Genius hour provides engagement and personalized instruction while at the same time allows for teachers to hit over 15 common core standards! We will be sharing resources and ideas on how to get started with this amazing opportunity for students and how to use technology to mitigate workflow and pacing issues as students move through this project.

Strands: studentagency, tech

Type of Session: Local Talent

Bio:

TOSA Innovation Strategist for Beaverton School District. I work with buildings in the district to get them Future Ready. I previously was an 8th grade language arts teacher for 11 years and a flipped ELA classroom teacher for 3 years! I also worked with 1:1 iPads for two years.

I have wrote a chapter in the book Flipping 2.0, and I will be presenting at AMLE2015- for the fourth consecutive year presenting at the national middle school conference! I have also presented at the ISTE playground for

educational tech coaches as well as presenting at the NEXT Schoology conference and demoing in the Schoology booth during ISTE for the last two years.

Collaborative Notes

Question (Any questions you have before, during, or after the meeting)	Answer (If I can't answer them right away I will research it and get back to you!)
