

# MCTE 2026 Spring Conference

## Presenter Notes

**Session title:** Grade-Appropriate Literacy Building Activities for High School

*Supporting foundational literacy skills at the high school level can be challenging. Available resources are not age appropriate, causing disengagement. In this session, we will share research, growth data, and practical age-appropriate strategies, including: morphology, syllabication, decoding, fluency work, and other activities to support the literacy needs of teens.*

**Presenter/s:** Katherine Green; Chelsea Bowker
