

If you want a commission, please DM me! I can be reached primarily on [Telegram](#) and [Bluesky](#). I also have [Tumblr](#) and [Twitter](#) accounts, but I use those less frequently, so I am more likely to miss your message.

Please make sure to mention that you are interested in a commission in your first few messages! It is unlikely I'll reply if you just say "hi".

Commissions are currently closed!
Commissions will likely not reopen until my living situation has stabilized.

I also appreciate anyone who just wants to support me financially! If you do, you can donate to me on [paypal](#), [cash app](#) or [kofi](#)!

I do not accept commission offers from people in Crypto. If you commission me, you are not allowed to use the commissioned art for anything related to Cryptocurrency or NFTs. If you do so despite this disclaimer, I will block you and publicly warn other artists about you.

*By choosing to commission me,
you unconditionally agree to these terms.*

(I will not begin work on a commission until I have recieved payment.)

Misc.

If you want multiple characters in a single piece: Base Price + any additions = (Price) × 1.5* + Any Variant Set additions (Per character. Sketchpages are exempt from this, as they are generally rougher and lower-detail.)

*rounded up

For Variant Imagesets, where there are multiple different edits of the same image; For example, a base image of a character, with two different versions where they're in two different outfits; the price is between **\$10 and \$15** per additional version, depending on the level of difference between the two versions.

If you do not have any reference material of your character, I recommend presenting as detailed a description of what you want your character to look like as you can.

Additionally, presenting reference of characters who have a similar design, and/or reference of the species/etc your character is based on is also helpful.

If you do not have any existing reference coming in, this is not a *dealbreaker*, but please understand that unless the express purpose of the commission is *for* designing your character, it would be taking advantage of my time and work to ask for too many revisions or changes to get a design 'just right'.
