

Sharpen Your Tools

Hey G,

I like how you guys are explaining dating from your own past experiences and from both male and female sides so it's easy to understand.

There's this 3 step method Iman Gadzhi used that you could implement into your "With My Ex Again" landing page to boost your conversion rates.

Before reaching out to you I tested it out and in less than a week, 2 of my clients' conversion rates went up by 60% for their Newsletter.

I recently started an Instagram business account and needed to gain followers fast.

I DM'd Muhammed and he was quick to help and wrote me a detailed report on how to gain attention, unique to my account.

The results were incredible and Muhammed over-delivered on his promise! In just 2 days, my Instagram followers have tripled, thanks to Muhammed's professionalism and expertise in digital marketing and copywriting.

I highly recommend Muhammed's services to anyone wanting to grow their IG account. Whether they are new to Instagram or have created content for years!

21:54

Do you have some available time this Sunday afternoon at around 3PM - 5PM to discuss how this can boost your conversions rates even higher than these clients of mine?

Let me know what time works better for you,

Muhammed
