Class 11 : Lab 9

```python
'''Write a Python program to check if a person is eligible
for a driver's license based on their age, residency,
and completion of driving lessons.Age should be 18 or above,
residency should be Indian and the lesson should either be complete
or in-progress'''

age=int(input("Enter age : "))
residency = input("Enter residency :")
lesson = input("Enter status of driving lesson :")

if age>=18 and residency=='indian' and (lesson=='complete' or
lesson=='in-progress'):
    print("you are eligible for Driver's License ")

else:
    print("You are not eligible")
```
