

Rosa Maria Petition

Social Media Toolkit

November 1, 2017

Background:

ICE targeted a child with special needs, separating her from her family and the special medical care she needs! As soon as she was discharged from emergency surgery, this 10-year old girl with cerebral palsy was taken away from her family, her doctors and community, and placed in a facility over 150 miles away. Join me in demanding ICE release Rosa Maria to her family where she can get the care she needs.

Facebook Post:

Border Patrol agents took Rosa Maria, a 10 year old girl with cerebral palsy recovering from an emergency gallbladder surgery, away from her family and doctors into ICE detention. This is cruel and inhumane! She is a 10 year old child that needs support from her family, care from her doctors and needs to be released from detention! Join us in demanding that Rosa Maria is released from ICE detention and able to return to her family to receive the care she needs NOW. Please, sign here:

Agentes de la Patrulla Fronteriza se llevaron a Rosa María, una niña de 10 años con parálisis cerebral que se estaba recuperando de una cirugía de emergencia de la vesícula. Ella se encuentra lejos de su familia y doctores en un centro de detención para inmigrantes. ¡Esto es cruel e inhumano! ¡Rosa María es una niña de tan solo 10 años que necesita de su familia y de los cuidados de sus doctores! Ayúdanos a pedir que pongan en libertad a Rosa María para que pueda regresar con su familia y recibir los cuidados que necesita ¡AHORA! Por favor, firma aquí: <http://moms.ly/2z7kuQN>
