

This is a Quick Guide to Fire Radio Channels for eastern Massachusetts

All relevant voice channels are listed

(Cellphones are used extensively by FDs) - (just Boston, Quincy, Chelsea, and Cambridge have mobile data terminals (MDTs) AFAIK - 7/2013)

(Area of interest - basically east of I495 - 9/23/2025)

All freqs are repeaters - [unless indicated otherwise by 'BM' or 'M' or 'simplex']

Many agencies have the ability to operate in simplex mode on the output side of their repeaters - usually in 'mobile to mobile' mode

Basic overview - each city and town in eastern Massachusetts has its own fire department - each fire department has its own radio channel or channels - there are some regional channels used for larger incidents or for regional coordination - most radio channels are UHF - (except for Cape Cod, Cambridge, MassPort, Marlborough, and Boston Command which uses 700/800 mhz - 10/15/2023)

Table of Contents

1. Abbreviations
2. Regional Fire Mutual Aid Channels
3. Statewide Channels
4. Local Channels

=====

1. Abbreviations - Acronyms - Definitions

Alt = alternative

MDT = mobile data terminal

FB2 = repeater (output channel)

BM = base & mobile

M = mobile

HT = handi talkie = portable radio = low power; short range - also considered to be 'mobiles'

input = input channels to repeaters - not listed here

FG = fireground radio channel = onscene radio channel

PL = Private Line

DPL = Digital Private Line

TRS = trunked radio system
TG = talkgroup (on a trunked system)
DTG = digital talk group (P25)
DTGs = digital talk groups (plural)
T = trunked channel (on a trunked system)
CH = channel
MO3 = repeater in a vehicle - aka 'mobile extender' - aka 'portable extender' - aka 'Pac RT'
NAC = network access code = digital equivalent to PL or DPL - used on P25 systems
P25 = digital radio system = APCO Standard 25 digital radio system
Tac = tactical (basically same as a FG channel)
FPD = fire protection district
FAO = fire alarm office / fire dispatch center
UHF = ultra high frequency (300 Mhz to 800 Mhz)
VHF = very high frequency (150 Mhz to 180 Mhz)
main = primary radio channel = home radio channel = busiest radio channel - usually is the
'dispatch and response' channel
secondary = not the primary radio channel
enc = encrypted / secure / scrambled
CC = control channel - for a trunked radio system
Side A = front of the building = Side 1
Side B = left side of building = Side 2 - (as viewed by a person facing Side 1)
Side C = rear of building = Side 3
Side D = right side of building = Side 4 - (as viewed by a person facing Side 1)
Working Fire = a real fire (not just a tiny trash fire or burnt out electrical ballast or oil heater
blowback or food on the stove etc)
Code 99 = cardiac arrest (for some agencies)
UASI - urban area security initiative

=====

2. REGIONAL FIRE MUTUAL AID CHANNELS

Fire Mobilization District 13 - "Metro Fire" - Boston area

White / Dispatchers - 483.2875 - PL 131.8 - FB2 in Needham
Red / FG - 483.3125 - PL 131.8 - ? 4 FB2 in Boston - (2024 no longer used as a cover channel)
North - 482.25 - PL 107.2 - FB2 on Zion Hill in Woburn
North FG Alpha - 482.1875 M - PL 141.3
North FG Bravo - 470.1875 M - PL 156.7 - new 2025
Central - 482.025 - PL 123.0 + NAC 404 - FB2 in East Cambridge at 40 Thorndike St
