

Social Justice Funds & Movement Networks

Compiled by North Star Fund 2021

We compiled this list of social justice funds and movement networks as a resource to support giving to grassroots organizing led by communities of color. We hope this will be a helpful resource, and it is not anywhere close to a comprehensive list of places to give.

These funds and networks share common values, including self-determination of communities most impacted by injustice, both in how funds are allocated and who makes decisions. Not all of them function the same way, with different approaches reflecting regions, issues, and relationships to grassroots groups.

Local/Regional Funds

- [North Star Fund](#), New York City & Hudson Valley
