

HILDEBERT OF LAVARDIN, *Epistolae* - manuscripts in the British Library

List compiled by Daniel Hadas (daniel.hadas@kcl.ac.uk). Additions and correction welcome.

The **numbering of letters** (in blue) is that used by Antoine Beaugendre (ed), *Venerabilis Hildeberti primo Cenomanensis episcopi deinde Turonensis archiepiscopi opera ...*, 1708, Paris ([online](#)). Beaugendre's edition was reprinted in vol. 171 of Migne's *Patrologia Latina* (1854, Paris: [online](#), letters at pp. 141-312).

Letters not included by Beaugendre are labelled by letters of the alphabet, as per the system adopted by P. von Moos, *Hildebert von Lavardin, 1065-1133. Humanitas an der Schwelle des höfischen Zeitalters*, 1965, Stuttgart.

The **numbering of sermons** (in green) is that established by A. Wilmart, 'Les sermons d'Hildeberrt', *Revue Bénédictine* 47 (1935), 13-51.¹
